ICLS Revisions to Form 508 Projections Due June 30, 2009

Incumbent rate-of-return carriers are permitted to submit a correction to their March 31, 2009 FCC Form 508 (Projected Annual Carrier Common Line Revenue Requirement Form) and supporting data until June 30, 2009 for the upcoming Interstate Common Line Support (ICLS) program year which runs from July 1, 2009 to June 30, 2010.

Additionally, by June 30, 2009, carriers are permitted to submit an update to the projected data for the funding year ending on June 30, 2009 (i.e., July 1, 2008 to June 30, 2009). Permitting these revisions to projected data for current and upcoming ICLS funding years will mitigate the lag between projected and actual data filings and give carriers more meaningful opportunities to revise projections to adjust ICLS where necessary.

After the June 30 correction deadline each year, any corrections to projected common line revenue requirement and supporting data shall be made in the form of true-ups, using actual cost and revenue data that a carrier must report in FCC Form 509, Annual Common Line Actual Cost Data Collection Form. See 47 C.F.R. Section 54.903(a)(3).

You must submit certifications with the signature of an authorized person with the FCC [Form 508](#), <http://www.usac.org/hc/tools/required-forms.aspx>. If you are filing on your own behalf, you must complete the reporting carrier certification page. If you are authorizing an agent to file on your behalf, you must complete the top portion of the agent certification page. Once you have completed the top portion of the agent certification page, your authorized agent must complete the bottom portion of the agent certification page.

Please note that if the form is submitted electronically (i.e., by fax, e-mail, or computer disk), the original, signed certifications of the authorized persons still must be received by USAC by the due date at the address below. Any spreadsheet files submitted must be in Excel 97 or above.
