

**\$400 million a year** available to provide reduced rates to health care providers for **telecommunications** service and **broadband** access

# RURAL HEALTH CARE PROGRAM

- **Improve patient access.** Conduct patient consultations remotely.
- **Reduce expenses.** Reduce travel time and share staffing.
- **Increase efficiency.** Exchange medical records and share patient information faster using Health Information Technology (HIT).
- **Expand your reach.** Access primary care and specialist referral services across the country.
