

Registering

The Texas A&M website limits the amount of times a person can run a census tract number search without registering an account. The limit is 15 individual searches per IP address. If you would like to run more than 15 searches, you will need to register for a free account on the website.

STEP 1: Click the “Sign Up” link at the top of the page.

STEP 2: Fill out the form provided. It’s okay to only fill out required fields.

STEP 3: Create a username and password, and select a security question.

STEP 4: Complete a simple math problem, to help Texas A&M weed out spam.

STEP 5: Agree to the terms and services.

STEP 6: You’ll receive a confirmation email. Click on the link provided.

There can only be one username per IP address. If you have several individuals who may need access to this tool, create a general account for your organization instead of individual accounts for each user.
