

EPC NOTES

The E-rate Productivity Center (EPC) is the account and application management portal for the Schools and Libraries (E-rate) Program. Applicants, consultants, and service providers participating in the E-rate Program will use this tool to manage program processes and to submit questions.

We are aware that there are known issues with the current system.

PLANNED NEAR TERM IMPROVEMENTS:

- Ensure that certain data that is currently missing from the pdf will appear, including some fields for Tariff and Month-to-Month FRNs and for certain portions of fiber FRN.
- Ensure that users have the ability to bulk upload student counts for larger data sets.
- Allow consortia applicants to have the ability to “select all” recipients of service on a funding request line item.
- Remove the erroneous error message that appears on the interest rate field for FRNs with special construction costs.
- Display Billed Entity Numbers and FRN Line Item numbers rather than the internal tracking numbers on error messages for certain consortium applications.
- Remove the requirement to allocate Internet Access by recipients of service.
- Allow FRN Line item uploads using Excel 2013.
- Allow the FRN line item upload template to accommodate partial line allocations.
- Prevent the Entity upload template from rounding CEP percentages.
- Allow users to enter data in all fields of the Connectivity template.
