**FEDERAL UNIVERSAL SERVICE SUPPORT MECHANISMS
FUND SIZE PROJECTIONS FOR
FOURTH QUARTER 2013**

INTRODUCTION

The Universal Service Administrative Company (USAC) hereby submits the federal Universal Service Support Mechanisms fund size and administrative cost projections for the fourth quarter of calendar year 2013 (4Q2013), in accordance with Section 54.709 of the Federal Communications Commission's (FCC or Commission) rules.¹

USAC is the not-for-profit corporation responsible for administering the federal Universal Service Fund (USF) and the universal service support mechanisms (also referred to as "programs" below): High Cost, Low Income, Rural Health Care, and Schools and Libraries.² USAC also performs the billing, collection, and disbursement functions for the universal service support mechanisms.

Upon approval of the quarterly funding requirements for the universal service support mechanisms and the projected administrative expenses, and the submission of the contribution base amount, the Commission will establish a quarterly contribution factor. USAC will bill USF contributors on a monthly basis for their individual obligations based on the approved contribution factor, collect amounts owed from contributors, and distribute funds to eligible recipients based on the schedules filed herein.³

¹ 47 C.F.R. § 54.709(a)(3).

² 47 C.F.R. § 54.701.

³ See 47 C.F.R. §§ 54.709(a)(4), 54.201, 54.203, 54.515, 54.517, 54.301-54.307, 54.407, 54.413, 54.515 and 54.611.

ADMINISTRATIVE EXPENSES AND INTEREST INCOME PROJECTION

ADMINISTRATIVE EXPENSES

Section 54.709(a)(3) of the Commission's rules requires USAC to submit its projected quarterly budget at least 60 days prior to the start of the quarter.⁴ USAC includes any costs that can be directly attributed to the High Cost, Low Income, Rural Health Care, and Schools and Libraries Support Mechanisms in the projected administrative expenses and capital expenditures of each mechanism. USAC's remaining joint and common costs including costs associated with the billing, collection, and disbursement of funds are included in the projected administrative expenses and capital expenditures of the respective support mechanisms based on USAC's methodology for allocating costs submitted to the Commission.⁵

USAC projects a consolidated budget of \$35.04 million for 4Q2013. Direct costs for all support mechanisms total \$19.85 million⁶ and are listed for each mechanism in the chart provided below. Joint and common costs (including billing, collection, and disbursement activities) are projected at \$11.13 million and capital expenditures are projected at \$4.06 million, both are allocated to each support mechanism as described in the chart below based on the allocation methodology on file with the Commission.

⁴ 47 C.F.R. § 54.709(a)(3).

⁵ On January 1, 2006, USAC implemented a revised methodology for allocating joint and common costs that was filed with the Commission on October 3, 2005. See Letter from D. Scott Barash to Marlene H. Dortch regarding Revisions to the Method for Allocating Costs Among the Four Universal Service Support Mechanisms, CC Docket Nos. 97-21 and 96-45 (Oct. 3, 2005).

⁶ This amount includes \$0.1 million for High Cost data collection performed by the National Exchange Carrier Association (NECA)—an independent entity not affiliated with USAC. See 47 C.F.R. §§ 36.611-13 and 69.603. Although USAC is required to pay for the data collection, it does not have the ability to directly oversee the effort and cannot verify, monitor, or otherwise evaluate the cost of performing the data collection function. Consistent with the fiduciary obligations of its members to safeguard USAC assets and the USF, USAC's Board of Directors has requested clarification from the Commission concerning this matter. See letter from D. Scott Barash, USAC, to Irene Flannery, FCC (Dec. 10, 1999), Comments of the Universal Service Administrative Company to the *Further Notice of Proposed Rulemaking* in CC Docket No. 96-45, FCC 01-8 (Feb. 26, 2001). See also, Comments of the Universal Service Administrative Company to the *Notice of Proposed Rulemaking and Further Notice of Proposed Rulemaking* in CC Docket No. 05-195, FCC 05-124 (June 14, 2005); and *Reply Comments of the Universal Service Administrative Company* (Dec. 19, 2005).

Universal Service Administrative Company 4Q2013 Fund Size Projections

4Q2013 Administrative Expenses (in millions) – Budgeted

USF Mechanism	Direct Costs	USAC Common	Capital Costs	Total
High Cost	\$2.62	\$3.03	\$0.42	\$6.07
Low Income	2.33	1.71	1.24	5.28

Schools & Libraries	12.07	5.47	2.27	19.81
Total	\$19.85	\$11.13	\$4.06	\$35.04

Funds collected, or anticipated to be collected but not expended in 2013 for the Beneficiary and Contributor Audit Program (BCAP), the Schools and Libraries Information Technology Modernization (SLITM), and Lifeline beneficiary re-certifications will reduce the amount to be collected in 4Q2013. A summary of the reductions by support mechanism follows:

*Unused or Allocated Dollars Carried Forward to
Fund 4Q2013 Administrative Expenses
(in millions)*

USF Mechanism	Direct Costs	USAC Common	Capital Costs	Total
High Cost	\$5.25	\$0.83	\$0.00	\$6.08
Low Income	1.95	0.47	0.00	2.42
Rural Health Care	0.44	0.25	0.00	0.69
Schools & Libraries	4.03	1.50	9.67	15.20
Total	\$11.67	\$3.05	\$9.67	\$24.39

The \$3.05 million credit to common costs represents amounts collected but not expended in prior quarters for contributor BCAP audits. The \$9.67 million credit to capital costs represents amounts collected but not expended in prior quarters for SLITM. The High Cost credit to direct cost is related to amounts collected but not expended in prior quarters for BCAP audits. Similarly, the Rural Health Care and Schools and Libraries credits to direct costs are related to amounts collected but not expended for BCAP. The Low

Income credit to direct costs includes amounts collected but not expended for BCAP and Lifeline re-certifications.

The resulting collection requirement to fund activities included in the 4Q2013 budget is \$10.65 million (\$35.04 million budget required less \$24.39 million carried forward) as set forth below.

Appendix M01 provides USAC's administrative expense and capital expenditure budget for 4Q2013. Appendix M02 provides the fund size projections for 4Q2013.

INTEREST INCOME PROJECTION

For 4Q2013, USAC projects interest income of approximately \$1.04 million for the High Cost Support Mechanism, \$0.19 million for the Low Income Support Mechanism, \$0.25 million for the Rural Health Care Support Mechanism, and \$3.79 million for the Schools and Libraries Support Mechanism. USAC projects total interest income of \$5.27 million. As in previous quarters, projected interest income is being included as an offset to administrative expenses for each of the support mechanisms and reduces the amount that USAC will be required to collect from carriers for those support mechanisms that are funded at caps established by the Commission.

FINANCIAL STATEMENTS

For the six months ended June 30, 2013, on a cash basis, USAC disbursed to

Universal Service Administrative Company 4Q2013 Fund Size Projections

beneficiaries \$3,876.35 million in universal service support as follows: \$1,953.12 million in High Cost support, \$911.47 million in Low Income support, \$960.83 million in Schools and Libraries support, and \$50.93 million in Rural Health Care support. On a cash basis, the total cash balance available as of June 30, 2013 to the universal service support mechanisms was \$7,112.27 million. On an accrual basis, USAC had a fund balance of \$7,358.23 million at June 30, 2013.

Appendices M03 and M04 provide 2013 year-to-date statements of fund activity on a cash and accrual basis.

EFFORTS TO PREVENT AND REDUCE IMPROPER PAYMENTS

USAC has established a foundation of processes, systems, procedures, and outreach activities to prevent or reduce “improper” payments as defined by the Improper Payments Information Act of 2002 (P.L. 107-300). USAC is also evaluating additional measures that may help to identify or reduce improper payments. USAC has initiated efforts consistent with its February 28, 2008 letter to the Commission identifying additional steps that USAC proposed to take to prevent or reduce potential improper payments and the additional resources needed to implement such measures.⁷ Commission staff has directed USAC to report on a quarterly basis its progress in implementing proposed actions to prevent or reduce improper payments and anticipated administrative costs of such actions.⁸

The steps initiated by USAC include additional oversight and managerial controls, strengthened audit and investigative techniques, improved information technology tools, and more effective use of outreach resources. In 4Q2013, USAC will continue efforts identified and initiated during the previous years. These efforts include, but are not limited to:

⁷ See Letter from D. Scott Barash, Acting Chief Executive Officer, USAC, to Anthony Dale, FCC Managing Director (Feb. 28, 2008), concerning suggested additional steps to reduce or prevent improper payments.

1. Assessing and strengthening USAC's internal controls.

The USAC internal controls team continues to develop and update required internal controls documentation and perform testing of key controls to conform the USAC internal controls program to best practices consistent with OMB Circular A-123, including Appendix A. In the first quarter of the calendar year, the team completed testing of key controls in the High Cost and Lifeline Programs. In the second quarter, the team wrapped up the risk assessment process, where they analyzed objectives, risks and controls across the key business processes to determine areas of higher risk. The team redesigned the risk assessment process this year to increase efficiency and obtain more appropriate and objective results. With the help of the process owners, the team also reviewed and updated the internal control process narratives in the second quarter. In the third quarter, the team will begin testing additional processes including Rural Health Care and USAC Financial Reporting.

In addition to documentation and testing activities, the USAC internal controls team continues to facilitate review and approval activities for all USAC policy and procedure documents and assist finance management with ad hoc process improvement projects.

2. Strengthening audit and investigative techniques.

(a) In February 2010, the FCC directed USAC to implement an assessment program to determine the rate of improper payments made to universal service support mechanism beneficiaries to support the FCC's reporting requirements under the Improper Payments Elimination and Recovery Act (IPERA),⁹ formerly known as the Improper Payments Information Act (IPIA),¹⁰ and to assess universal service support mechanism

⁹ See The Improper Payments Elimination and Recovery Act of 2010, Pub L. No. 111-204, July 22, 2010.

beneficiary and USF contributor compliance with FCC regulations.¹¹ USAC successfully implemented this assessment program, known as the Payment Quality Assurance (PQA) Program, in August 2010 (see paragraph b below).

The FCC also directed USAC to establish a comprehensive support mechanism beneficiary and USF contributor audit program, which is known as BCAP. USAC originally planned to conduct the initial round of 343 BCAP audits using a combination of USAC Internal Audit Division (IAD) staff and external audit firms. In mid-2012, IAD began working with FCC staff to develop a new audit sample to be performed by USAC IAD staff and outside audit firms. IAD developed the audit sample based on existing staff levels that concentrates on larger and more complex audits when compared to the audits completed in 2010 and 2011. Overall, USAC recommends a reduction in the total number of audits as originally planned from 343 to 267 (including targeted). This is primarily driven by a reduction in the number of High Cost Program beneficiary audits. USAC's original proposal of 100 High Cost Program audits was based upon preliminary error rates reported by the FCC OIG that were ultimately found to be significantly inflated.

USAC also recommends reducing the number of Low Income Program beneficiary audits from 50 to 29. USAC continues to work with FCC Office of Managing Director and Office of General Counsel staff on the procurement process and documents for soliciting bids from professional service firms to perform audits under BCAP.

As of the July 2013 quarterly USAC Board of Directors meeting, 73 audits have been finalized since the January 2013 quarterly meetings and 109 audits were completed in calendar year 2012. In addition to completing the audits from the random sample, the audit

team is also conducting unplanned audits as requested by USAC management, which are included in the numbers below. The status of the BCAP audits as of 2nd Quarter 2013 is as follows:

Program	Planned	Board Approved	% Complete	In Progress	Pending Board Approval
Contributor Revenue	33	21	64%	19	7
High Cost	25	16	64%	4	5
Low Income	29	26	90%	15	3
Schools & Libraries	25	30	120%	6	3
Rural Health Care	15	3	20%	16	8
Total	127	96	76%	60	26

(b) As previously reported, the PQA Program has completed two years of testing payments under this directive. Using a statistically drawn sample, each month support mechanism disbursements are selected and reviewed to verify that payments were made at the correct amount in accordance with FCC rules. The table below summarizes the error rates noted and the projected estimated improper payment amounts for each program for Calendar Year 2011 disbursements compared to Calendar Year 2010:

Support Mechanism	2011		2010	
	Improper Payment Rate	Estimated Improper Payment Amount (millions)	Improper Payment Rate	Estimated Improper Payment Amount (millions)
High Cost	0.30%	\$12.6	0.11%	\$5.1
Low Income	0.09%	\$1.6	0.23%	\$3.0
Schools and Libraries	1.91%	\$43.4	0.94%	\$21.9
Rural Health Care	0.92%	\$0.7	1.68%	\$1.4

The PQA Program collects information from program beneficiaries for the purpose of verifying the accuracy of program disbursements requested and received by the beneficiaries. The PQA team performs payment verification on randomly selected

beneficiaries over a calendar year. Testing of payments for Calendar Year 2012 remains underway and additional detail will be provided in future reports.

3. Improving information technology tools.

USAC prepared a request for proposals (RFP) for the software procurement and systems integration of the USAC and USF financial systems modernization (FSM) project. The goals of FSM are to provide a more robust, flexible infrastructure to support all aspects of USAC operations. USAC has submitted relevant procurement documents to the FCC for approval prior to initiating procurement activities, and continues to work with the FCC on this initiative. Concurrently, USAC has undertaken a systematic review of the capabilities of its current financial system in order to determine whether additional functionality can be added to improve financial operations in the interim.

4. Expanding and enhancing outreach and education.

In 2nd Quarter 2013 (2Q2013), USAC conducted three live training events, one for Rural Health Care beneficiaries (113 attendees) and two for Schools and Libraries service providers (383 attendees). USAC also conducted a webinar for Lifeline Program carriers about the National Lifeline Accountability Database (614 participants). USAC provided individual outreach to 64 Schools and Libraries applicants. USAC participated in seven professional meetings, involving audiences for the Rural Health Care and Schools and Libraries Programs. USAC posted two online interactive modules, one for contributors and one for Rural Health Care participants, and an instructional video for Rural Health Care participants.

FUNDING REQUIREMENTS

HIGH COST SUPPORT MECHANISM

FUNDS RESERVED PURSUANT TO THE *USF/ICC TRANSFORMATION ORDER (FCC 11-161)*

On November 18, 2011, the FCC released the *USF/ICC Transformation Order* (FCC 11-161).¹² In the Order, the FCC set an annual funding target for the High Cost Support Mechanism of no more than \$4.5 billion annually over the next six years. The Order directed USAC to forecast total High Cost Program demand at no less than \$1.125 billion per quarter beginning with 1Q2012.¹³ In the Order, the FCC waived section 54.709(b) of its rules and instructed USAC not to make any prior period adjustments related to High Cost Program support. The Order requires that if actual contributions exceed demand, excess contributions are to be credited to a new Connect America Fund (CAF) reserve account, to be used to fund future broadband deployment.¹⁴ If actual High Cost Program demand exceeds the quarterly target of \$1.125 billion, no additional funds will accumulate in the reserve account for that quarter.¹⁵ In addition, the *USF/ICC Transformation Order* states that the \$4.5 billion budget includes only disbursement of support and does not include administrative expenses or prior period adjustments for support for prior years.¹⁶

In the *USF/ICC Transformation Order*, the Commission instructed USAC to wind down the Corr Wireless reserve account and use \$300 million in the account to fund

anticipated commitments in 2012 to recipients of the Mobility Fund Phase I.¹⁷ The remaining balance was used to fund Phase I of the Connect America Fund for price cap carriers in 2012.¹⁸ The Commission also instructed USAC not to use the Corr Wireless reserve account to fund inflation adjustments for the Schools and Libraries program for the current 2011 funding year. The chart below reflects the Connect America Fund reserve as of June 30, 2013.

Appendix HC01 provides projected High Cost Support by state, by study area, for 4Q2013. HC01 also provides the projected amount of individual company support, and projected per-month amounts for the components of High Cost support that each ETC²¹ may be eligible to receive. HC02 provides the total projected amount of annualized High Cost Support for 4Q2013 for each state and territory.

CONNECT AMERICA FUND PHASE I – INCREMENTAL SUPPORT

Incremental Support is designed to provide an immediate boost to broadband deployment in areas that are unserved by any broadband provider.²² Incremental Support is available to price cap carriers at the holding company level. The Commission determined the amount available for each carrier, which it published in DA 12-639, released on April 25, 2012.²³ Carriers had 90 days to accept all, part, or reject the amount available. If a price cap carrier accepts Incremental Support, it is required to deploy broadband to a number of service locations equal to the amount it accepts divided by \$775.²⁴

On May 22, 2013, the Commission announced that a second round of Connect America Fund Phase I – Incremental Support funding will be available to promote expansion of broadband to consumers that lack access. The Commission allocated \$300

million for the second round of Phase I support. If total demand exceeds \$300 million, the Commission will authorize up to an additional \$185 million in funding.²⁵

Information concerning whether Connect America Fund Phase II support will be available in 2013 has not yet been determined.

CONNECT AMERICA FUND/INTERCARRIER COMPENSATION SUPPORT

In the *USF/ICC Transformation Order*, the FCC adopted a transitional recovery mechanism with an effective date of July 1, 2012 to facilitate incumbent carriers' gradual transition away from intercarrier compensation (ICC) revenues.²⁶ Eligible incumbent carriers may receive additional support through this recovery mechanism.

For 4Q2013, total Connect America Fund/Intercarrier Compensation Support is estimated to be \$109.28 million and total annual 2013 Connect America Fund/Intercarrier Compensation Support is estimated to be \$437.12 million.

Appendix HC12 provides projected Connect America Fund/Intercarrier Compensation Support payments by state by study area for 4Q2013.

RATE-OF-RETURN CARRIERS

Rate-of-return carriers not affiliated with price cap carriers may continue to receive legacy High Cost Program support and may receive Connect America Fund support to offset lost inter-carrier compensation (ICC) revenues.²⁷

High Cost Loop Support (including Safety Net Additive and Safety Valve Support)

High Cost Loop (HCL) Support is calculated based on the results of the annual collection of 2011 incumbent local exchange carrier (LEC) loop cost and expense

adjustment data that was submitted to the FCC and USAC on October 1, 2012.²⁸ Growth in total HCL Support for rural carriers is limited under Section 36.603(a) of the Commission's rules to the current level of funding increased yearly by the annual growth in supported rural loops.²⁹ The *RTF Order*³⁰ increased HCL support for rural carriers effective July 1, 2001.

Rural HCL Support for calendar year 2013 will be less than the level of payments for 2012 because of a rural growth factor of negative 2.5527 percent. Rural HCL Support for calendar year 2013, therefore, is capped at \$774.85 million. This capped amount reflects reductions pursuant to the *USF/ICC Transformation Order*, which was adjusted by NECA in the first quarter of 2012 to exclude price cap local exchange carriers and their rate-of-return affiliated study areas.

The *RTF Order* provided Safety Net Additive (SNA) Support above the HCL cap for carriers that make significant investment in rural infrastructure in years in which HCL is capped.³¹ To receive support, a rural carrier must show that growth in telecommunications plant in service (TPIS) per loop is at least 14 percent greater than the study area's TPIS per loop in the prior year. Pursuant to the *USF/ICC Transformation Order*, SNA will be phased down over a two year period, and no SNA support will be provided for carriers whose costs are incurred after 2009.³² For 4Q2013, projected SNA support is \$4.83 million.

For 4Q2013, projected HCL Support is \$197.44 million, which includes \$4.83 million for SNA support and \$1.69 million for Safety Valve Support. Total annual 2013 HCL Support is projected to be \$789.76 million.

Local Switching Support

ETC study areas having 50,000 or fewer access lines are eligible to receive support for local switching costs.³³ LSS is the product of a carrier's annual unseparated local switching revenue requirement multiplied by its local switching support factor.³⁴ Pursuant to the *USF/ICC Transformation Order*, LSS was eliminated as a separate support mechanism effective July 1, 2012.³⁵

Interstate Common Line Support

Interstate Common Line Support (ICLS) is designed to permit each rate-of-return carrier to recover its common line revenue requirement while ensuring that its subscriber line charges (SLCs) remain affordable for its customers.³⁶

For 4Q2013, ICLS is projected to be \$217.05 million and total annual 2013 ICLS is estimated to be \$873.94 million.

Appendices HC09, HC10, and HC11 provide USAC's 4Q2013 projections of ICLS by state by study area, per line and by state, respectively. HC13 and HC14 provide ICLS 2011 true-up by state by study area and 2011 true-up per line respectively.

Nov. 8, 2001)) (*MAG Order*).

PRICE CAP CARRIERS

In the *USF/ICC Transformation Order*, the FCC directed USAC to freeze all support for price cap carriers and their rate-of-return affiliates for HCL, HCM, SVS, LSS, IAS, and ICLS, on a study area basis to the amount of support each carrier received in 2011.³⁷ For 4Q2013, total frozen high cost support for price cap carriers is estimated to be \$259.55 million and total annual 2013 frozen high cost support is estimated to be \$1,038.20 million. Appendix HC08 provides frozen high cost support for price cap carriers by state by study area for 4Q2013.

COMPETITIVE ELIGIBLE TELECOMMUNICATIONS CARRIERS

The *USF/ICC Transformation Order* transitioned existing CETC support to the Connect America Fund over a five-year period beginning January 1, 2012.³⁸ For the transition, the FCC set each CETC's baseline support at its total 2011 support in a given study area, or an amount equal to \$3,000 times the number of reported lines as of year-end 2011, whichever is lower.³⁹ That monthly baseline amount was provided from January 1, 2012 to June 30, 2012.⁴⁰ Beginning July 1, 2012, each CETC's support was reduced by 20 percent for each July to June time period.⁴¹

For 4Q2013, total frozen High Cost Program support demand for CETCs is \$135.15 million. In addition, for rural Alaska CETCs and Standing Rock, 4Q2013 High Cost Program support is estimated to be \$19.58 million. The combined High Cost Program support demand totals for CETCs, rural Alaska CETCs, and Standing Rock for 2013 is estimated to be \$154.73 million.

Additionally, Appendix HC03 provides 4Q2013 projections for Rural Alaska and Standing Rock Support by study area. Appendix HC04 provides 4Q2013 per line projections for Rural Alaska and Standing Rock Support.

HIGH COST SUPPORT MECHANISM SUMMARY

The 4Q2013 High Cost Support Mechanism funding requirements are projected as follows: \$197.44 million for HCL Support, \$217.05 million for ICLS, \$259.55 million for frozen Price Cap Carrier Support, \$154.73 million for frozen CETC Support,⁴² \$109.28 million for Connect America Fund/Intercarrier Compensation Support, and \$186.95 million for the Connect America Fund reserve account resulting in total High Cost Support Mechanism projected demand of \$1,125.00 million.

Financial results for 2Q2013 contributed to an over-funded condition for which this filing proposes to adjust the 4Q2013 funding requirements. The total adjustment to the 4Q2013 funding requirement based on actual results will decrease the funding requirement by \$15.22 million. The explanation for the adjustment is described in the following table:

Reason for the Prior Period Adjustment	Adjustment in Millions
2Q2013 billings were higher than the projected revenues reported by USF contributors in their quarterly revenue projections.	(\$4.53)
High Cost Support Mechanism distributions were equal to projected in 2Q2013.	0.00
Interest income was equal to the estimate for 2Q2013.	0.00
Bad debt expense was lower than anticipated.	(10.69)
Total Prior Period Adjustment	(\$15.22)

The total fund requirement of \$1,125.00 million is adjusted as follows: decreased by the prior period adjustments of \$15.22 million, decreased by administrative costs of \$0.01

⁴² "CETC Support" includes frozen support, rural Alaska CETC support, and support to the Standing Rock Reservation CETC.

million, and reduced by the projected interest income of \$1.04 million; resulting in a total projected 4Q2013 funding requirement for the High Cost Support Mechanism of \$1,108.73 million.

Appendix M02 provides information on the individual components of the funding requirement for the quarter.

LOW INCOME SUPPORT MECHANISM

LIFELINE SUPPORT

All ETCs must offer Lifeline support to qualified low-income consumers.⁴³ ETCs providing Lifeline support are entitled to receive funding for the waiver of charges and reduced rates provided to qualified low-income subscribers.⁴⁴ In the *Lifeline Modernization Order*, all non-tribal Lifeline support is set to a flat rate of \$9.25 for all subscribers equally, regardless of whether they subscribe to wireline or wireless Lifeline service.⁴⁵ The Order, however, does not make any changes to Tier 4 support available to low-income consumers residing on tribal lands.⁴⁶ As established in the *Tribal Order*, Tier Four support makes available each month up to an additional \$25 per low-income subscriber to eligible residents of tribal lands.⁴⁷

For 4Q2013, USAC projects \$449.68 million will be required for Lifeline Support. Based on this projection, total annual 2013 Lifeline Support is estimated to be \$1,812.15 million.

On August 31, 2000, the FCC stayed the implementation of the federal Lifeline and Link Up rule amendments only to the extent that they apply to qualifying low-income consumers living near reservations.

LINK UP SUPPORT

Effective with the April 2012 support claims, Link-Up support was eliminated for all ETCs on non-tribal lands. Link-Up support is available for ETCs that provide support on tribal lands, but is limited to those ETCs receiving High Cost Program support.⁴⁸ Eligible ETCs may claim a 100 percent reduction, up to \$100, of the customary charge for commencing telephone service for a single telecommunication connection at a subscriber's principal place of residence.⁴⁹

For 4Q2013, USAC projects that \$0.05 million will be required for Link-Up support. Based on this projection, total annual 2013 Link-Up support is estimated to be \$0.44 million.

TOLL LIMITATION SUPPORT

Toll Limitation Support (TLS) compensates ETCs for providing voluntary toll-limitation service based on the carrier's incremental cost of providing toll-limitation services. The Commission has defined these costs as the costs that carriers otherwise would not incur if they did not provide toll-limitation service to a given customer.⁵⁰ Toll limitation consists of toll blocking, which permits consumers to elect not to allow the completion of outgoing toll calls, and toll control, which allows consumers to specify a certain amount of toll usage that may be incurred per month or per billing cycle.⁵¹

The *Lifeline Modernization Order* phases out TLS over a period of time by capping the maximum amount that an ETC may claim. As of April 2012 through the remainder of 2012, TLS was capped at \$3.00 per month per TLS subscriber. TLS is reduced to \$2.00 in 2013, and will be eliminated and unavailable at the beginning of 2014.⁵²

⁵² See *Lifeline Modernization Order*, ¶ 234.

Universal Service Administrative Company 4Q2013 Fund Size Projections

For 4Q2013, USAC projects that \$0.29 million will be required for TLS. Based on this projection, total annual 2013 TLS is estimated to be \$2.67 million.

BROADBAND PILOT

The *Lifeline Modernization Order* established a Broadband Pilot Program for low-income consumers to test the impact of broadband adoption with variations in the monthly discount for broadband services. The broadband discounts will be provided over an 18-month period with no more than \$13.8 million to be disbursed.⁵³ USAC projects that \$1.00 million will be required for the Broadband Pilot Program in 4Q2013.

LOW INCOME SUPPORT MECHANISM SUMMARY

The estimated 4Q2013 Low Income Support Mechanism funding requirements are projected as follows: \$449.68 million for Lifeline, \$0.05 million for Link-Up, \$0.29 million for Toll Limitation Service, and \$1.00 million for Broadband Pilot, resulting in total of \$451.02 million.

Financial results of 2Q2013 contribute to an over-funded condition, for which this filing proposes to adjust the 4Q2013 funding requirement. The total adjustment to the 4Q2013 funding requirement based on actual results will decrease the funding needed by \$47.44 million. The explanation for the adjustment is described in the following table:

Reason for the Prior Period Adjustment	Adjustment in Millions
2Q2013 billings were higher than the projected revenues reported by USF contributors in their quarterly revenue projections.	(\$1.81)
Low Income Support Mechanism distributions were lower than projected in 2Q2013.	(41.33)

The total fund requirement of \$451.02 million decreased by the prior period adjustment of \$47.44 million, increased for administrative costs of \$2.86 million, and reduced by projected interest income of \$0.19 million, results in a total projected funding requirement for the Low Income Support Mechanism for 4Q2013 of \$406.25 million.

cover “up to 85 percent of an applicant’s costs of deploying a dedicated broadband network.”⁵⁸ The application window for the Pilot Program opened on March 8, 2007 and closed on May 7, 2007.⁵⁹ On November 19, 2007, the FCC released an order increasing the number of funding years to three for the Pilot Program and awarding \$417.78 million in support to 69 applications over funding years 2007, 2008 and 2009.⁶⁰ Support under the Pilot Program is capped at \$139.26 million in each of the three funding years. The Commission stated that monies collected in funding year 2006 for the Pilot Program should be applied to Funding Year 2007,⁶¹ resulting in \$54.44 million of funds collected for Funding Year 2006 being reallocated to Funding Year 2007.

As of June 30, 2013, Pilot Program funding commitments have been issued totaling \$16.75 million for Funding Year 2008. Based on information provided by applicants, USAC now estimates Funding Year 2008 Pilot Program demand will be \$16.30 million. In accordance with the instructions in a January 17, 2008 letter from the Chief of the FCC Wireline Competition Bureau allowing Pilot Program participants to roll forward support not used in one year to a subsequent funding year, USAC carried forward funds not used in Funding Year 2008 to Funding Year 2009. USAC has collected \$139.26 million for each of the Pilot Program Funding Years, thus no further collection is necessary.

As of June 30, 2013, Primary Program funding commitments have been issued totaling \$68.52 million. Based on information provided by applicants USAC estimates Funding Year 2008 Primary Program demand will be \$66.69 million. The Commission previously authorized collection of \$66.69 for Funding Year 2008.

FUNDING YEAR 2012

Funding Year 2012 began on July 1, 2012 and ended on June 30, 2013. The window for Funding Year 2012 opened on April 16, 2012. As of June 30, 2013, a total of 5,635 Form 465s were posted and 4,981 packets were received.

As of June 30, 2013, Primary Program funding commitments have been issued totaling \$39.17 million. Based on information provided by applicants, USAC now estimates Funding Year 2012 Primary Program demand will be \$115.03 million. The Commission previously authorized collection of \$86.27 million for Funding Year 2012. Considering the revised Primary Program demand estimate for Funding Year 2012, USAC recommends the Commission increase collections for Funding Year 2012 of the Primary Program by \$28.76 million in 4Q2013.

Funding commitments made during 2Q2013 are included in Appendix RH09. Authorized funding by applicant during 2Q2013 and cumulative payments to service providers through 2Q2013 are listed in Appendices RH10 and RH11, respectively.

RURAL HEALTH CARE SUPPORT MECHANISM SUMMARY

The estimated 4Q2013 Rural Health Care Support Mechanism demand requirement is \$55.81 million; (\$28.76 million for Funding Year 2012, \$1.05 million for Funding Year 2011, and \$26 million for demand associated with the new Healthcare Connect Fund (HCF). The FCC is working with USAC to project the amounts to be collected for the new program until historical data provides an adequate basis for projecting demand.⁶² Pursuant to FCC instruction, USAC projects \$26 million for 4Q2013 demand associated with the HCF.

The FCC has also directed USAC to use uncommitted Pilot Program dollars for the demand associated with the HCF. As of June 30, 2013, USAC estimates that there will be

Universal Service Administrative Company 4Q2013 Fund Size Projections

\$54.19 million in uncommitted Pilot Program dollars available for commitment under the HCF in 4Q2013. Total estimated HCF funds available for commitment in 4Q2013 will be \$106.19 million.

The results of 2Q2013 contributed to an overfunded condition for which this filing proposes to adjust the 4Q2013 funding requirements. The total adjustment to the 4Q2013 funding requirement based on actual results will decrease the funding requirement by \$0.51 million. The explanation for the adjustment is provided in the following table:

Reason for the Prior Period Adjustment	Adjustment in Millions
The 2Q2013 billings were higher than the projected revenues reported by USF contributors in their quarterly revenue projections.	(\$0.16)
Interest income was the same as estimated for 2Q2013.	0.00
Bad debt expense was lower than anticipated.	(0.35)
Total Prior Period Adjustment	(\$0.51)

The total fund requirement of \$55.81 million is adjusted as follows: decreased by the prior-period adjustment of \$0.51 million, increased for administrative costs of \$3.19 million, and decreased by the projected interest income of \$0.25 million, resulting in a total projected funding requirement for the Rural Health Care Support Mechanism for 4Q2013 of \$58.24 million.

SCHOOLS AND LIBRARIES SUPPORT MECHANISM

Following is a summary of Schools and Libraries Support Mechanism net commitments⁶³ and net authorized for payment⁶⁴ by funding year as of June 30, 2013.

⁶³ Net Commitments are the amount of total funding commitments (including appeals, less funding commitment adjustments (COMADs) and other recaptures) reduced by the remaining dollar amount of commitments that had not been fully disbursed by their invoicing deadline.

⁶⁴ Net authorized for payment is the amount of total approved invoices less any returned funds. Authorized payments may be greater than net commitments due to recoveries in the process of collection.

SCHOOLS AND LIBRARIES SUPPORT MECHANISM SUMMARY

In a series of actions from December 1999 through December 2002, the Commission used a net total of \$477.16 million of undisbursed Funding Year 1998 Schools and Libraries Support Mechanism funds to reduce USF collection requirements. Consistent with the Commission's direction in the *Schools and Libraries First Report and Order*, a total of \$852.12 million of undisbursed Funding Years 1999 and 2000 collections were used to stabilize USF contributions and offset collections for 3rd Quarter 2002 (3Q2002), 4th Quarter 2002 (4Q2002), and 1st Quarter 2003 (1Q2003).⁶⁵

Universal Service Administrative Company 4Q2013 Fund Size Projections

In the *Schools and Libraries Sixth Report and Order*, the Commission amended its rules to increase the cap on program funding by indexing the cap to inflation.⁷⁶ The Commission calculates this annual increase by using the percentage increase in the gross domestic product chain – type price index (GDP-CPI) from the previous year and rounds this to the nearest 0.1 percent. The Commission found that the GDP-CPI increased 0.9 percent between 2008 and 2009. Using this analysis, the Commission set the cap for Funding Year 2010 to \$2,270,250,000. On August 5, 2011, the Commission set the cap for Funding Year 2011 at \$2,290,682,250.⁷⁷ On November 18, 2011, the FCC ordered USAC to include the inflation adjustments to the E-rate cap in the Schools and Libraries Support Mechanism demand projection.⁷⁸ On May 18, 2012, the Commission set the cap for Funding Year 2012 to \$2,338,786,577.⁷⁹ On March 11, 2013, the FCC set the cap for Funding Year 2013 at \$2,380,314,485.⁸⁰

In consultation with FCC staff, USAC estimates that a total of \$350million is available to carry forward from funding years as follows: 2002: \$40 million; 2007: \$20 million; 2008: \$20 million; 2009: \$50 million; and 2010: \$220 million. Funding Year 2012 True-Up

As of June 30, 2013, \$790.12 million of Funding Year 2012 support had been authorized for disbursement. USAC's projection of remaining Funding Year 2012 funds includes estimates of funds needed to pay additional disbursements on committed funding requests and disbursements on requests that have not yet received funding commitments, as well as a contingency reserve to pay pending appeals and to make disbursements on funding requests that may be granted extended invoice deadlines pursuant to Commission orders. Given these requirements and to preserve the contingency amount, USAC estimates that no Funding Year 2012 funds are available to carry-forward. The estimated remaining Funding Year 2012 balance is based on the following:

4Q2013 Demand Estimate and Contribution Requirement

USAC changed the accounting methodology for the USF to generally accepted accounting principles for federal agencies on October 1, 2004 to comply with the Commission's Order of October 3, 2003.⁸¹ Commission staff subsequently determined that Funding Commitment Decision Letters (FCDLs) for the Schools and Libraries Support Mechanism are to be treated as "obligations" for federal budgetary accounting purposes and

subject to the requirements of the Antideficiency Act (ADA).⁸² The ADA generally requires that sufficient unobligated resources be available before an obligation can be incurred.

Congress exempted the USF from the requirements of the ADA through December 31, 2013.⁸³

To reduce the USF cash reserve that has accumulated primarily because the structure of the program necessarily results in significant time lags between the commitments and actual disbursements while at the same time retaining the ability of the USF to satisfy all outstanding commitments based on historic disbursement patterns, the Commission applied a total of \$550 million of the undisbursed USF balance from prior years against Schools and Libraries Support Mechanism demand in 2004. The Commission applied \$200 million of the cash balance in both Second Quarter and Third Quarter 2004, and \$150 million in Fourth Quarter 2004.⁸⁴

Based on the level of applicant demand in Funding Year 2013, which exceeds the annual funding cap, USAC requests authority to collect an amount to provide \$562.50 million in funding for 4Q2013, which is one-quarter of the \$2.25 billion annual funding cap, increased by an inflation factor of \$32.58 million, an amount equal to one-quarter of the projected annual inflation adjustment of \$130.31 million.⁸⁵ Results for 2Q2013 contribute to

⁸⁴ As stated in its January 31, 2004, Federal Universal Service Support Mechanisms Fund Size Projections for the Second Quarter 2005, and in its subsequent quarterly filings, USAC will continue to consult with the Commission as appropriate concerning the necessity and timing of any recovery of this \$550 million.

an over-funded condition for which this filing proposes to adjust the 4Q2013 requirements. The total adjustment to the 4Q2013 fund requirement based on actual results will decrease the funding needed by \$9.20 million. The explanation for the adjustment is provided below:

Reason for the Prior Period Adjustment	Adjustment in Millions
2Q2013 billings were higher than projected	(\$2.30)
Interest earned was as projected	0.00
Bad debt expense was lower than anticipated	(6.90)
Total Prior Period Adjustment	(\$9.20)

The total fund requirement of \$562.50 million, which includes administrative expenses of \$4.61 million, increased by the inflation increment of \$32.58 million, decreased by the prior-period adjustment of \$9.20 million, and reduced by the projected interest income of \$3.79 million, results in a total projected collection requirement of \$582.09 million for the Schools and Libraries Support Mechanism for 4Q2013.

CONTRIBUTION BASE

USAC collects quarterly interstate and international revenue information from carriers on FCC Form 499-Q four times each year. USAC uses this information to determine aggregate projected revenue collections, which are filed with the Commission on March 2, June 1, September 1, and December 2 each year.⁸⁶ Based on these filings, the Commission establishes the contribution factor for the upcoming quarter.

The quarterly USF contribution factor established by the Commission is derived from projections of support mechanism demand calculated by USAC and projected collected revenue submitted by USF contributors on FCC Form 499-Q and aggregated by USAC. The total USF funding requirement is based on many inputs and is the result of the

⁸⁶ See 47 C.F.R. § 54.709(a)(3). The Form 499-Q includes a box for each of the quarterly filing submissions. Carriers check the appropriate box to indicate the quarter for which revenue information is being reported. See also, 47 C.F.R. §§54.706, .708, .711 and .713 for contributor reporting requirements.

manner in which the support mechanisms operate pursuant to Commission rules. Inputs include actual support mechanism demand, which changes quarterly, adjustments resulting from events that occur in prior periods but are reported to USAC in the current period, and reconciliation of projections from prior periods to actual results reported by USF contributors and support mechanism beneficiaries (i.e., prior period adjustments). Other inputs include USAC administrative expenses and capital expenditures, and the impact of interest income earned on USF funds USAC invests in United States Treasury securities. The USF contribution base is different each quarter due to changes in carrier revenue projections, which among other things are subject to changing business cycles, and changes to requirements concerning the revenue to which the USF assessment applies (e.g., adding or subtracting certain types of services to the contribution base due to rule changes or other Commission activity). Because of the combined influence of these many factors, nearly all of which change each quarter based on the manner in which the Commission rules operate and the programs are administered, the quarterly contribution factor established by the Commission derived from these USAC-submitted inputs can fluctuate substantially from quarter to quarter. Thus, comparisons to preceding or prior year quarters should be made with caution and predicting trends based on such comparisons may not provide a basis for meaningful analysis.

A total of 6,588 FCC Form 499-Q notifications were distributed to carriers in early July 2013. Interstate telecommunications service providers are required to complete this form, reporting October – December 2013 projected revenue information, and return it to USAC by August 1, 2013. USAC invoices and receives contributions from more than 3,000 telecommunications companies each month.

USAC continues to assist the Commission in its USF collection enforcement efforts, including providing documentation on a quarterly basis to assist the Commission in issuing

Notices of Apparent Liability (NALs) and forfeiture orders against delinquent contributors and companies failing to file required forms. Pursuant to a directive issued by the FCC on March 27, 2012, USAC transfers monies that are 120 days delinquent to the U.S. Treasury after USAC has provided the delinquent carrier with the notice required under FCC and Debt Collection Improvement Act (DCIA) requirements.

USAC implemented the Red Light Rule on November 1, 2004 for contributor debts to the USF.⁸⁷ If a contributor is delinquent to the USF, USAC performs administrative offsets to resolve the delinquency by netting any pending service provider disbursements where the Service Provider Identification Number (SPIN) shares the same Taxpayer Identification Number (TIN) as the delinquent contributor. If an entity is delinquent on a debt owed to the Commission, USAC places administrative holds on any disbursements for SPINs that share the same TIN until the Commission provides information stating that the debt has been satisfied. USAC continues to work closely with the Commission and stakeholders affected by the Red Light Rule implementation.

AUTHORIZATION TO FILE WITH THE COMMISSION

At their July 29, 2013 meetings, USAC's High Cost & Low Income, Rural Health Care and Schools & Libraries Committees adopted resolutions authorizing USAC staff to file with the Commission the 4Q2013 projected support mechanism funding requirements described herein. At its July 30, 2013 meeting, the USAC Board of Directors adopted a resolution authorizing the inclusion of the projected 4Q2013 administrative expenses in this report to the Commission.

Respectfully submitted,
