SECTION A:
About Us and the Work

I. ABOUT USAC

Through its administration of the Universal Service Fund (“USF”) programs on behalf of the FCC, Universal Service Administrative Company (“USAC”) works to promote the availability of quality services at just, reasonable and affordable rates and to increase access to advanced telecommunications services throughout the nation. Specifically, the USF programs provide funding for the expansion of telecommunications and broadband access to rural communities and health care facilities, schools and libraries across the country, and low income households. Through program administration, auditing, and outreach, USAC works with contributors, service providers, and program beneficiaries to achieve the program goals articulated by the FCC for High Cost, Lifeline, Rural Health Care, and Schools and Libraries.

USAC strives to provide efficient, responsible stewardship of the programs, a key national asset in making important telecommunications and Internet services available to consumers, health care providers, schools, and libraries throughout the United States. The program divisions are supported by additional USAC personnel in Finance, General Counsel, Information Systems, Internal Audit, the Enterprise Program Management Office and Human Resources.

Consistent with FCC rules, USAC does not make policy for or interpret unclear provisions of statutes or the FCC’s rules. Universal service is paid for by contributions from telecommunications carriers, including wireline and wireless companies, and interconnected Voice over Internet Protocol providers, including cable companies that provide voice service, based on an assessment of their interstate and international end-user revenues. These contributions are typically passed through to consumers through a universal service fee line item on their telephone bills.

Additional information on USAC programs can be found at: http://www.usac.org/about/about/who-we-are/default.aspx

II. Overview of the Project

The FCC has reformed the USF to support further investment in and access to evolving broadband infrastructure, making the programs a primary vehicle to support this critical national priority. USAC, as the administrator of the USF, plays a critical role in supporting the ambitious vision to ensure that all citizens in the United States have access to high-speed broadband. The organization has approximately 500 employees. USAC works in close partnership with the FCC and other federal and state partners to support the achievement of the USF program goals.

The purpose of this Request for Proposal (“RFP”) is to select a qualified external firm to provide statistical modeling and analysis services for USAC’s Payment Quality Assurance (“PQA”) Program, High Cost Mobility Fund, and also provide statistical service for unforeseen requirements for other USAC programs/departments. USAC will award a single indefinite-delivery, indefinite-quantity (“IDIQ”) task order based contract resulting from this RFP to the responsible selected contractor whose offer is most advantageous to USAC with respect to price and certain other
factors discussed herein considered. The selected contractor will be responsible for performing these objectives in accordance with Section B Statement of Work.

III. Confidentiality

This RFP and any resultant contract is subject to the terms of the Confidentiality Agreement (attached hereto as Attachment 4) which must be executed by Offeror and submitted along with any proposal for this RFP.

Part 200 (collectively “Procurement Regulations”).

6. **SCOPE OF SERVICES/DELIVERABLES BY PROGRAM**

   **A. Background: Audit and Assurance Division Payment Quality Assurance (PQA)**

   The Payment Quality Assurance (“PQA”) Program enables USAC to provide the FCC with accurate, timely information about improper payments to Support Mechanism beneficiaries, as required by the Improper Payments Elimination and Recovery Improvement Act (“IPERIA”). Under the PQA program, USAC assesses specific payments made to USF program beneficiaries to determine if these payments were made in accordance with FCC rules. Using the results of these assessments, USAC calculates estimates of improper payment rates and provides this information to the FCC.

   USAC disburses funds to eligible beneficiaries on a monthly basis for the High Cost and Lifeline Programs and, as appropriate invoices are submitted by beneficiaries and approved for payment under the Rural Health Care and E-rate Programs. USAC selects a limited number of Support Mechanism beneficiaries for each cycle of PQA assessments. The following table summarizes the estimated annual assessments in each Support Mechanism for the USF PQA program:

1. **Scope of Services**

   Contractor shall provide professional statistical modeling and analysis services for USAC’s PQA program, which monitors beneficiary compliance with Universal Service
support mechanism regulations, and provides information to the FCC for reporting under the IPERIA (formerly known as the Improper Payments Elimination and Recovery Act (“IPERA”) and Improper Payments Information Act (“IPIA”)). IPERIA requires federal agencies to review programs and activities they administer and identify those that may be susceptible to significant erroneous payments. IPERIA focuses on disbursements of federal funds made by a federal agency, contractor, or an organization administering a federal program or activity (including USAC). The FCC has determined that IPERIA applies to the support mechanisms of the USF PQA program. The PQA procedures are designed to assess rates of improper payments and are not intended to constitute (or replace) audits of compliance with FCC rules.

Contractor shall provide guidance on the appropriate sample selections for USAC's PQA program to provide information concerning compliance with IPERIA. Contractor shall:

1. Review data on USAC disbursements under each of the Support Mechanisms and prepare a sampling plan for PQA assessments on each of the Support Mechanisms summarizing sampling methodology and compliance with statistical sampling requirements.

2. Review results of PQA assessments on an ongoing basis to ensure the sampling plan continues to meet IPERIA requirements. Amend or modify the sampling plan if necessary.

4. Consult with USAC and, as necessary the FCC, regarding sampling plan and results of sample assessments.

B. **Background: High Cost Connect America Fund**

The High Cost Program is dedicated to preserving and advancing voice and broadband service, both fixed and mobile, in rural areas of the United States. The High Cost Program ensures that rates for broadband and voice services are reasonably comparable in every region of the U.S. Like all USF programs, the administration of the High Cost Program has undergone significant
modernization in the last several years to increase innovation and ensure beneficiaries have access to updated technology. USAC is leveraging the new High Cost Universal Broadband Portal (HUBB), which allows Carriers participating in modernized Connect America programs to file deployment data showing where they are building out mass-market, high-speed internet service by precise location. This information includes latitude and longitude coordinates for every location where service is available, and USAC will eventually display this information on a public-facing map to show the impact of Connect America funding on broadband expansion throughout rural America.

Prior to the modernization of the High Cost Fund, carriers were required to submit revenue and expense data to USAC to qualify for High Cost Program support for the maintenance and upgrade of voice services. The High Cost Program is transforming, and carriers are now required to report the physical location, with coordinates, of where broadband is being deployed using USF dollars. The program will also measure the broadband progress and a demonstration of how the funds are being used. Although a much smaller percentage of carriers will continue to submit legacy documentation and be audited by USAC’s internal audit department, many carriers will be participating in Connect America Fund (“CAF”) instead. The High Cost Program will now be responsible for compliance as it relates to verification of broadband build out. Millions of locations are expected to be submitted and USAC’s High Cost division is currently developing verification procedures to ensure the locations reported by the carrier are capable of delivering broadband. Because all the locations cannot be verified, a robust sampling plan is needed to ensure the verification team reviews enough locations to have confidence in the data reported.

The following table lists the High Cost program funds and other FCC directives that are subject to verification and require a sampling plan:

Accordingly, USAC shall be the sole and exclusive owner for all purposes for the use, distribution, exhibition, advertising and exploitation of such Materials or any part of them in any way and in all media and by all means throughout the universe in perpetuity.

Contractor shall not, without the prior written permission of the USAC Procurement Office, incorporate in Data delivered under the Contract any Data not first produced in the performance of the Contract unless Contractor: (1) identifies the Data; and (2) grants to USAC, or acquires on USAC’s behalf, a license of the same scope as set forth earlier in this Section XXI.

**XXII. RESPONSIBILITY FOR CONTRACTOR PERSONNEL**

Contractor personnel working on USAC premises are required to sign and agree to the terms of a Visitor Form provided by USAC. Contractor is responsible for any actions of its personnel, including any actions that violate law, are negligent, or that constitute a breach of the Visitor Form and/or the Contract.

*Security Briefings.* Before receiving access to IT resources under the Contract, Contractor personnel must provide security training to its own employees. USAC will review and approve Contractor’s security training materials and verify that training certifications and records are provided, if requested during an annual FISMA audit. If Contractor employees will be in USAC offices or have access to USAC IT systems, background checks are required pursuant to NIST. Contractor shall conduct background checks on its employees and provide evidence of the background checks to USAC upon request.
XXIII. RECORD RETENTION

During the term of the Contract and for three (3) years following final payment, Contractor shall maintain and make available at its offices at all reasonable times, the records, materials, and other evidence relating to the Contract for examination, audit, or reproduction.

XXIV. KEY PERSONNEL

USAC may specify which Contractor employees are key personnel under the Contract. Contractor key personnel assigned to the Contract must remain in their respective positions throughout the term of the Contract. USAC may terminate all or a part of the Contract if the Contractor changes the position, role, or time commitment of key personnel, or removes key personnel from the Contract, without USAC’s prior written approval. USAC may grant approval for changes in staffing of key personnel if it determines in its sole discretion, that:

A. changes to, or removal of, key personnel is necessary due to extraordinary circumstances (e.g., a key personnel’s illness, death, termination of employment, or absence due to family leave), and

B. Contractor has resources (e.g., replacement personnel) with the requisite skills, qualifications and availability to perform the role and duties of the outgoing personnel.

Replacement personnel are considered key personnel and this Section XXIV shall apply to their placement on and removal from the Contract.

Terms of any shipping are F.O.B. USAC’s delivery location unless otherwise noted in the Contract. All goods, products items, materials, etc. purchased hereunder must be packed and packaged to ensure safe delivery in accordance with recognized industry-standard commercial practices. If, in order to comply with the applicable delivery date, Contractor must ship by a more expensive means than that specified in the Contract, Contractor shall bear the increased transportation costs resulting therefrom unless the necessity for such shipment change has been caused by USAC. If any Materials are not delivered by the date specified herein, USAC reserves the right, without liability, to cancel the Contract as to any Materials not yet shipped or tendered, and to purchase substitute Materials and to charge Contractor for any loss incurred. Contractor shall notify USAC in writing promptly of any actual or potential delays (however caused) which may delay the timely performance of this Contract. If Contractor is unable to complete performance at the time specified for delivery hereunder, by reason of causes beyond Contractor’s reasonable control, USAC may elect to take delivery of materials in an unfinished state and to pay such proportion of the Contract price as the work then completed bears to the total work hereunder and to terminate this Contract without liability as to the balance of the materials covered hereunder.
XXVI. INSURANCE

At its own expense, Contractor shall maintain sufficient insurance in amounts required by law or appropriate for the industry, whichever is greater, to protect and compensate USAC from all risks and damages/injuries that may arise under the Contract, including as appropriate, public and commercial general liability, personal injury, property damage and employer's liability and worker's compensation insurance. Contractor shall produce evidence of such insurance upon request by USAC. Contractor shall provide written notice thirty (30) days prior to USAC in the event of cancellation of or material change in the policy.

XXVII. CONFLICTS OF INTEREST

It is essential that any Contractor providing Services or Deliverables in support of USAC’s administration of the USF maintain the same neutrality, both in fact and in appearance, and avoid any conflict of interest or even the appearance of a conflict of interest. For example, to the extent that Contractor, or any of its principals, has client, membership, financial and/or any other material affiliation with entities that participate in the federal USF in any respect, there may be actual, potential and/or apparent conflict(s) of interest. Contractor shall promptly notify USAC, with a copy to USAC’s General Counsel, in writing of any actual or potential conflicts of interest involving Contractor, or any circumstances that give rise to the appearance of a conflict of interest, and the means by which Contractor proposes to avoid, neutralize, or mitigate such conflicts. Contractor shall also notify USAC of any conflicts Contractor has with USAC vendors. Failure to provide adequate means to avoid, neutralize or mitigate any conflict of interest may be the basis for termination of the Contract. By its execution hereof, Contractor represents and certifies that it has not paid or promised to pay a gratuity, or offered current or future employment or consultancy, to any USAC or government employee in connection with the award. In order to maintain the required neutrality, Contractor must not advocate any policy positions with respect to the USF programs or the USF during the term of the Contract. Neither Contractor nor its subcontractors shall issue any public statement relating to or in any way disclosing any aspect of the Contract without the prior written consent of USAC.

XXVIII. INVALIDITY OF ANY PROVISION

It is the intent of the parties that the provisions of the Contract will be enforced to the fullest extent permissible, but that the unenforceability of any provision will not render unenforceable or impair the remainder of the Contract, which will be deemed amended, to delete or modify, as necessary, the invalid or unenforceable provisions. The parties further agree to negotiate replacement provisions for any unenforceable term that are as close as possible to the original term and to change such original term only to the extent necessary to render the same valid and enforceable.
XXIX. WAIVER

Any waiver of any provision of this Contract must be in writing and signed by the parties hereto. Any waiver by either party of a breach of any provision of this Contract by the other party shall not operate or be construed as a waiver of any subsequent breach by the other party.

XXXI. CHOICE OF LAW / CONSENT TO JURISDICTION

The Contract shall be governed by and construed in accordance with the laws of the District of Columbia (the term “laws” is to be construed as broadly as possible to include case law, statutes, regulations, orders, etc.) without regard to any otherwise applicable principle of conflicts of laws. Contractor agrees that all actions or proceedings arising in connection with the Contract shall be litigated exclusively in the district and, if applicable, Federal courts located in the District of Columbia (“Courts”). This choice of venue is intended to be mandatory and the parties’ waive any right to assert forum non conveniens or similar objection to venue. Each party hereby consents to in personam jurisdiction in the Courts. Contractor must submit all claims or other disputes to the procurement specialist for informal resolution prior to initiating any action in the Courts and must work with USAC in good faith to resolve any disputed issues. A dispute over payment or performance, whether informal or in the Courts, shall not relieve Contractor of its obligation to continue performance of the Contract and Contractor shall proceed diligently with performance during any dispute over performance or payment.

XXXII. USAC AND APPLICABLE LAWS

USAC is not a Federal agency, a government corporation, a government controlled corporation or other establishment in the Executive Branch of the United States Government. The parties agree that USAC, as licensee of such rights under Contractor, shall retain and may fully exercise all of its rights and elections under the Code. The parties further agree that, in the event of the commencement of bankruptcy proceedings by or against Contractor under the Code, USAC shall be entitled to retain all of its rights under the Contract and shall not, as a result of such proceedings, forfeit its rights to any Material, license, Software, Data or works made for hire.

XXXIV. NON EXCLUSIVITY

Except as may be set forth in the Contract, nothing herein shall be deemed to preclude USAC from retaining the services of other persons or entities undertaking the same or similar functions as those undertaken by Contractor hereunder or from independently developing or acquiring goods or services that are similar to, or competitive with, the goods or services, as the case may be, contemplated under the Contract.

XXXV. INDEPENDENT CONTRACTOR

Contractor acknowledges and agrees that it is an independent contractor to USAC and Contractor’s key personnel, employees, representatives, directors, officers, subcontractors and agents are not employees of USAC. USAC will not withhold or contribute to Social Security, workers’ compensation, federal or state income tax, unemployment compensation or other employee benefit programs on behalf of Contractor or Contractor personnel. Contractor shall indemnify and hold USAC harmless against any and all loss, liability, cost and expense (including attorneys’ fees) incurred by USAC as a result of USAC not withholding or making such payments. Neither Contractor nor any of Contractor’s personnel are entitled to participate in any of the employee benefit plans of, or otherwise obtain any employee benefits from, USAC. USAC has no obligation to make any payments to Contractor’s key personnel, employees, representatives, directors, officers, subcontractors and agents. The Offeror’s proposal may identify deviations from, or revisions, exceptions or additional terms (collectively “exceptions”) to the Terms and Conditions, but only if such exceptions are clearly identified in a separate section within each proposal volume entitled “Exceptions to RFP Terms.” Proposals that include material exceptions to the Terms and Conditions may be considered unacceptable and render Offeror ineligible for award unless the Offeror withdraws or modifies any unacceptable exceptions prior to USAC’s selection of the successful Offeror for award. USAC will only consider changes or additions to the RFP terms and conditions that are included in Offeror’s proposals. After selection of the awardee, USAC will not consider or negotiate any exceptions to the Terms and Conditions.

D. AMEND, REVISE OR CANCEL RFP

USAC reserves the right to amend, revise, or cancel this RFP at any time at the sole discretion of USAC. No legal or other obligations are assumed by USAC by virtue of the issuance of this RFP, including payment of any proposal costs or expenses, or any commitment to procure the services sought herein.

If a back-up point of contact is not available, please explain how USAC may contact the client in the event the primary point of contact fails to respond.
  - For each past performance, provide a description of the relevant performance and the name and telephone number for USAC to contact for past performance information for each project discussed. A past performance description will consist of an overview of the engagement, a description of the scope of work performed, its relevance to this effort, and the results achieved. This is the time to identify any unique characteristics of the project, problems encountered, and corrective actions taken. Each overview shall not exceed one page.
  - USAC will attempt to contact past performance references identified in the proposal for confirmation of the information contained in the proposal and/or will transmit a past performance questionnaire to the contacts identified in the Offeror's proposals. Although USAC will follow-up with the contacts, the Offeror, not USAC, is responsible for ensuring that the questionnaire is completed and returned by the specified date in USAC’s transmittal. If USAC is unable to reach or obtain a reference for the project, offeror will receive an “unknown” risk in an evaluation of past performance.

D. Price Proposal (Volume IV)

This volume must include:
- A cover page, as outlined above.
- Completed pricing information in, Attachment 1: Pricing Schedule.
  - The fixed labor-hour prices should be fully loaded and must include wages, overhead, general and administrative expenses, taxes and profit for each labor category.
  - The labor rates established in this RFP will be used for base and all option years, except that the Contractor may offer discounts to the labor rates at their discretion.

E. Presentation and Page Limitations

1. Proposal Presentation
a. Proposals must be prepared using Times New Roman font. All text except for diagrams, tables, and charts must be presented in 12 point font. Diagrams, tables, and charts may be presented in a smaller font if needed to fit the page. The reduced font size may not be smaller than 9 point.

b. The content of each diagram, table, Gantt chart, and chart must accurately depict the same information included in the text, serving as the visual representation of the written content in the proposal.

c. Any diagram, table, Gantt chart or chart must be readable when printed. These documents may be included as Attachments to the proposal using landscape orientation to enhance presentation if needed.

d. All diagrams, tables, Gantt charts, and charts must be incorporated into the proposal using the native program from which it was created to eliminate distortion of text by inserting images and pictures.

e. The font color used to label column headings must be bolded and a contrasting color from the background color to clearly display headings.

2. Page Limitation

Page count, for each Volume including the cover page, may not exceed the below:

   a. Volume I – Corporate Information; may not exceed four (4) pages.
   b. Volume II – Technical; may not exceed twelve (12) pages; however excluding Appendix A (Resumes),
   c. Volume III – Past Performance Information; may not exceed four (4) pages.
   d. Volume IV – Price; may not exceed three (3) pages.

Any proposals received exceeding the page count, will be considered technically unacceptable and may not receive further consideration.

7. EVALUATION

USAC will award a single contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to USAC, price and other factors considered. The following factors, which are listed in descending order of importance, shall be used to compare offers and select the awardee – Technical, Past Performance, and Price. When combined the Technical and Past Performance factors are significantly more important than price.

- **Technical**: The technical sub factors listed below in descending order of importance:
  - Technical Approach
  - Key Personnel

- **Past Performance**: Past performance information will be evaluated to assess the risks associated with an Offerors performance of this effort, considering the relevance, recency and quality of the Offerors past performance on past or current contracts for the same or
similar services. The Offerors past performance will be evaluated based on the Offerors discussion of its past performance for similar efforts, information obtained from past performance references (including detailed references for the Offerors proposed teaming partner(s) and/or subcontractor(s), as applicable), and information that may be obtained from any other sources (including government databases and contracts listed in the Offerors proposal that are not identified as references).

- **Price Evaluation:** USAC will evaluate price based on the total of the extended prices in the Pricing Schedule. However, price is the least important evaluation factor and the Contract may not be awarded to the lowest priced Offeror. Price may become a more important selection factor if the ratings for the non-price factors are the same or very close to the same. In addition to considering the total prices of the Offerors when making the award, USAC will also evaluate whether the proposed prices are realistic (i.e., reasonably sufficient to perform the requirements) and reasonable. Proposals containing prices that are determined to be unrealistic or unreasonable will not be considered for award.

8. **DOWNS-SELECT PROCESS**

USAC may determine that the number of proposals received in response to this RFP are too numerous to efficiently conduct a full evaluation of all evaluation factors prior to establishing a competitive range. In such case, USAC may conduct a down-select process to eliminate Offerors, prior to discussions, from further consideration based on a comparative analysis of Offerors price proposals. Proposals that include proposed prices that is significantly higher than the median proposed price for all Offerors may be excluded from the competition without evaluation under the other evaluation factors. Proposals that contain prices that are unrealistically low in terms of sufficiency to perform the Contract may also be excluded from the competition.

9. **RESPONSIBILITY DETERMINATION**

USAC will only award contracts to responsible Offerors. USAC will make a responsibility determination based on any available information, including information submitted in an Offeror’s proposal. In making a responsibility determination, USAC will consider whether:

1. the Offeror has sufficient resources to perform the Contract;
2. the Offeror has a satisfactory record of performance, integrity and business ethics;
3. the Offeror has the accounting systems and internal controls, quality assurance processes and organizational structure and experience necessary to assure that contract work will be properly performed and accurately invoiced;
4. the Offeror has the facilities, technical and personnel resources required to perform the contract; and
5. the Offeror is not excluded from Government contracting, as listed on the excluded parties list in https://www.sam.gov.
