

**Affordable Connectivity Program
Service Provider Election Form**

All broadband providers (both eligible telecommunications carriers (ETCs) and non-ETCs) that wish to participate in the Affordable Connectivity Program (ACP) must file an election notice with USAC. Providers should email this completed form and the required documents to ACProgram@usac.org.

Here are the required documents to be submitted with the election:

- 1. FCC approval of your company’s participation in the ACP** (required for non-ETCs and ETCs that wish to participate in states outside their ETC designation).
- 2. ETC designation(s)** (required for ETCs).

If your election is missing required information or [documentation](#), processing may be delayed. All fields on this form are required, unless noted as “if applicable.” The “if applicable” fields are required for providers that are able to submit the information. Certain sections only apply to certain types of providers.

Section D: Affiliate Information

Please list any parent/subsidiary or affiliate relationships the provider has with other broadband service providers and whether they intend to participate in the Affordable Connectivity Program.

Note: All affiliates must independently file their own election form if they wish to participate in ACP.

Section E: API Access to USAC Systems

If your company intends to utilize an Application Programming Interface (API) to access either the National Verifier or the National Lifeline Accountability Database (NLAD), as such functionalities are made available, for the ACP, and you have not previously signed an Interconnection Security Agreement (ISA) with USAC, please complete and sign the ISA and include it with your election notice for the ACP. Returning the signed ISA will ensure that your company can, at a minimum, access the staging environment to test the National Verifier and NLAD APIs as they exist for Lifeline (as needed) while USAC completes necessary system development to put ACP workflows in place.

ETCs that already use APIs to access the National Verifier or NLAD do not need to sign another ISA at this time. However, USAC may require ANY participating provider to execute a new or modified ISA or an addendum to an existing ISA to utilize APIs to access ACP workflows in either pre-production (staging) or production environments once those functionalities are available. You will be notified if additional action is necessary.

Section F: Certifications and Signature

I certify, under penalty of perjury, that:

- I. I am an officer authorized to submit this election form on behalf of the participating provider;
- II. The participating provider understands and will comply with all statutory and regulatory obligations described within the FCC rules and orders, including the public interest conditions of offering Affordable Connectivity Program services throughout its designated service area, and all terms and conditions and other requirements applicable to using the National Verifier, National Lifeline Accountability Database (NLAD), Representative Accountability Database (RAD), and other USAC systems.
- III. The company listed in Section A is a broadband provider in each jurisdiction selected in Section C.
- IV. Based on information known to me or provided to me by employees responsible for the data being submitted, the data set forth in this election form has been examined and is true, accurate and complete. I acknowledge that any false statement on this election form or on other documents submitted by the participating provider can be punished by fine or forfeiture under the Communications Act (47 U.S.C. § 502, 503 (b)), or fine or imprisonment under Title 18 of the United States Code (18 U.S.C. § 1001), or lead to liability under the False Claims Act (31 U.S.C. §§ 3729 – 3733).
- V. In addition to the foregoing, the participating provider is in compliance with the rules and orders governing the Affordable Connectivity Program, and I acknowledge that the participating provider is subject to the Federal Communications Commission’s enforcement, fine, or forfeiture authority under the Communications Act. Failure to be in compliance and remain in compliance with the Affordable Connectivity Program rules and orders may result in the denial of funding, cancellation of funding commitments, and the recoupment of past disbursements. I acknowledge that failure to comply with the rules and orders governing the Affordable Connectivity Program could result in civil or criminal prosecution by law enforcement authorities.

**Universal Service
Administrative Co.**

- VI. I understand that providing materially false information in this submission will disqualify a provider from participating in the Affordable Connectivity Program.
- VII. The election form is true, complete, and accurate, and the expenditures, disbursements and cash receipts are for the purposes and objectives set forth in the terms and conditions of the Federal award. I am aware that any false, fictitious, or fraudulent information, or the omission of any material fact, may subject me to criminal, civil or administrative penalties for fraud, false statements, false claims or otherwise. (U.S. Code Title 18, Sections 1001, 286-287 and 1341 and Title 31, Sections 3729-3730 and 3801-3812).

By signing, I consent to the disclosure of the information included in this election form, including the company contact information, with third parties administering the Affordable Connectivity Program on behalf of the FCC.

Signed:
