Housekeeping

- USAC will walk through some slides and then take questions
- We’ll answer questions both verbally and through the questions feature
- We’ll answer as many questions as we can during today’s session
**Agenda**

1. Program & Systems Overview
2. NLAD System Changes for ACP
   - Verify/Enroll
   - Transfer
   - Update
   - Moving Subscribers from EBB to ACP
   - Other Changes
3. NV System Changes for ACP
4. Appendix
Program & Systems Overview
## Timeline
### EBB Program to ACP Transition

System Update Overview
National Verifier (NV)

- Service providers and consumers can begin submitting ACP applications by visiting the National Verifier website at ACPBenefit.org on December 31, 2021. On this date, all pre-existing EBB Program applications, except those that do not qualify through an ACP eligibility program (i.e. Substantial Loss of Income) will roll over and become eligible for ACP enrollment. Eligibility programs available will be updated to reflect the ACP rules:

1. Special Supplemental Nutritional Program for Woman, Infants and Children (WIC) will be available to select as a qualifying program

2. A list of participating Community Eligibility Provision (CEP) schools will be available for applicants to select from when they indicate they qualify through the Free and Reduced Price School Lunch or Breakfast program. Applicants will need to provide documentation proving eligibility.

3. Substantial Loss of Income (SLI) will no longer be available to select as a qualifying program.
System Update Overview
National Lifeline Accountability Database (NLAD)

• Enrollments in ACP can begin on Dec. 31, 2021. On that date, all new enrollments will be into ACP. However, service providers will be able to continue to manage their EBBP subscribers in NLAD during the transition period between the two programs.

Both the National Verifier and NLAD will be unavailable while USAC transitions the systems from EBB to ACP. The systems will be unavailable for 6 hours, from 6 pm EST on Dec. 30, 2021 until 12 am EST on Dec. 31, 2021.
National Lifeline Accountability Database (NLAD) System Changes for ACP
Verify/Enroll Changes

Batch Template

• EBB enrollments end on December 30, 2021 at 6PM EST; beginning December 31, 2021 all verify/enroll transactions will be to enroll the subscriber in ACP

• A new batch template will be available this week
  • New fields for ACP certification indicator will be optional

• There will be minimal changes to Verify/Enroll transaction requirements and format
## Verify/Enroll Changes

<table>
<thead>
<tr>
<th><strong>Batch/API</strong></th>
<th><strong>User Interface</strong></th>
<th><strong>Eligibility Programs</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>New field “acpCertInd” will be used rather than the existing “certInd”</td>
<td>EBB certification language will be replaced with ACP certification language</td>
<td>Eligibility program still only provided by Service Provider when the AVP exception is used</td>
</tr>
</tbody>
</table>

E52 no longer accepted (SLI). E53 is modified to refer only to a provider's "existing low-income program." Subscribers can no longer qualify through enrollment in a provider's COVID-19 program.

E54 added and accepted (WIC)
Transfers

Things to note

• Transfer cannot be used to move a subscriber between programs; it will only move a subscriber from one service provider to another within the Program the subscriber is already in

• Service providers may not know what Program the subscriber is in when they transfer; if the provider submits the wrong certification indicator (e.g. an ACP certification for an EBB subscriber), the system will return an error
  • This error serves as a notice that the subscriber is in the EBB Program and not the ACP, and the provider will need to fix the transaction & resend it to USAC with the correct indicator
  • **Service providers may consider providing disclosures and collecting consent that covers both EBB and ACP in order to minimize the burden on consumers**

• There will be minimal changes to Transfer transaction requirements and format
Transfer Changes

Batch/API

• New field “acpCertInd”
• Unlike Verify/Enroll, the existing “certInd” will still be accepted if the subscriber is enrolled in EBB at the time of transfer
• Service providers cannot provide both certifications and will receive an error if they provide the incorrect certification – they must provide the certification that corresponds to the program in which the subscriber is enrolled
  • Serves as a way of notifying the service provider which program the subscriber will be enrolled in after transfer
Transfer Changes

User Interface

• ACP certification language will be added.
  • Both EBB and ACP certification language will appear on the page with a radio option to select one or the other; the system will not know until after the transaction is submitted which program the subscriber is currently enrolled in
• Service providers will receive an error after submitting the transfer if they did not choose the certification corresponding to the program the subscriber is enrolled in
• If the AVP exception is selected, the dropdown menu will include eligibility programs for both EBB and ACP
Transfer Changes

Eligibility Programs

• Eligibility program still only provided by service provider when the AVP exception is used

• All eligibility programs will be accepted (including E52 and E54), but the service provider may receive an error if they choose an eligibility program that is not accepted for the program the subscriber is enrolled in
  • E.g. the service provider selects E54 (WIC) as the eligibility program, but the subscriber is actively enrolled in EBB

• In order to successfully transfer using E52 (SLI), the subscriber must have been actively enrolled with that program prior to the transfer
Update Changes

Things to note

• Update cannot be used to move a subscriber from EBB to ACP
• There will be minimal changes to Update transaction requirements and format
Update Changes

Batch/API

• New field – “acpCertInd”

• Like Transfer transactions, the existing “certInd” will still be accepted if the subscriber is enrolled in the EBB Program at the time of update

• Service providers cannot provide both certifications and will receive an error if they provide the incorrect certification– they must provide the certification that corresponds to the program in which the subscriber is enrolled
  • This serves as a way of confirming which program the subscriber is enrolled in
Update Changes

User Interface

• EBB or ACP certification will display, according to which program the subscriber is enrolled in
Moving Subscribers from the EBB Program to ACP

Things to note

• The FCC will provide clarified guidance on the issue of collecting consent to move consumers from EBB to ACP

• At this time, there is no functionality available to transition an existing EBB subscriber into ACP.

• Existing EBB subscribers will continue to be eligible to receive the up to $50 service benefit through the EBB 60-day transition period.

• The FCC will also provide further guidance regarding the transition of EBB subscribers into ACP.
Other Changes

Reports

• The only change is the addition of the an “ACPCertInd” field that service providers can use to determine whether a subscriber is enrolled in EBB or ACP

• The new field will appear on all reports downloaded from the NLAD website

• Service providers will have the option to receive the new field in reports pulled by API
  • To receive the new field providers can include a new parameter of “includeACPCertInd” with a value of “1”. This parameter is fully optional – providers can continue pulling reports without it
Other Changes

Claims

• The FCC will provide clarified guidance on how ACP Claims can be made after the program has begun.
Other Changes

Representative Accountability Database (RAD)
- The Terms & Conditions will be updated; there will be no other changes

De-enroll Transactions
- No changes
National Verifier (NV) System Changes for ACP
User Interface Changes

- There will be minimal changes to the NV portal
- Eligibility pathways
  - Documentation is now required for the Community Eligibility Provision (CEP) Schools eligibility criteria
  - Substantial Loss of Income (SLI) will be removed as an eligibility option and Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) will be added
National Verifier Carrier API Changes

- Same changes to application workflow
- Swap Emergency Broadband Benefit Program for Affordable Connectivity Benefit or ACP
- SLI will be removed and WIC will be added
National Verifier Consumer Outreach

- There will be updated “qualified” and “failed manual review” emails with ACP language

You Qualify for the Affordable Connectivity Program!
Now, it’s Time to Sign Up with a Provider.

Dear [FIRST NAME],

Your application for the Affordable Connectivity Program (ACP) has been approved!

If you haven’t already done so, your next step is to sign up with a participating internet company by [ELIG_EXPIRATION_DATE] so you can begin receiving discounted broadband service through the ACP.

Sign up by [ELIG_EXPIRATION_DATE] or you will need to reapply for the ACP.

Even if you want to receive the benefit from your current internet service provider, you still need to contact them to start receiving the ACP benefit.

How to Sign Up with a Provider

1. Contact a participating internet company to pick a service plan and ask to sign up for the ACP to start receiving the benefit.
Upcoming Service Provider Trainings

Affordable Connectivity Program System Changes Office Hours:
Tuesday, December 21, 2021 @ 2:30 p.m. ET: Register

Recordings of ACP webinars can be found on the ACP Learn page
Service Providers: Stay Informed About ACP

• Visit USAC.org to follow ACP updates

• Sign up for ACP updates and select the information you’d like to receive

• Visit the FCC website for additional program information and to submit comments on the ACP

• FCC guidance orders:
  • 12/8: https://www.fcc.gov/document/fcc-issues-further-guidance-affordable-connectivity-program
