MISSION

USAC collects and distributes funds, works to protect the integrity of the universal service programs, promotes compliance among program participants, and provides information about universal service to Congress, the FCC, program stakeholders, and the general public.

In 2014 USAC continued on the journey towards helping connect Americans to each other and the world through broadband and Internet access. By keeping a sharp focus on the needs of program participants and through collaboration with stakeholders, USAC implemented program and policy changes in efficient and streamlined ways.

HIGH COST PROGRAM

The High Cost Program provides support to eligible telecommunications carriers that, in turn, offer rates and services to consumers in rural areas that are reasonably comparable to those available in urban areas.

LIFELINE PROGRAM

The Lifeline Program provides support to eligible telecommunications carriers that, in turn, pass that support through to eligible consumers through discounts on telecommunications services.

RURAL HEALTH CARE PROGRAM

The Rural Health Care Program provides support to eligible health care providers for reduced rates on telecommunications services and broadband access.

SCHOOLS AND LIBRARIES PROGRAM

The Schools and Libraries Program, commonly known as the E-rate Program, provides support to eligible schools and libraries for reduced rates on telecommunications, telecommunications services, Internet access, and eligible equipment, along with repair and upkeep of eligible equipment.

CHAIRMAN & CEO LETTER

B. L. Talbott

Dr. Brian L. Talbott
CHAIRMAN OF
THE BOARD

Chris Henderson

Chris Henderson
CHIEF EXECUTIVE
OFFICER

We invite you to open up this annual report and explore the many ways in 2014 that USAC continued to move forward, together with the Federal Communications Commission (FCC) and program stakeholders, towards a more connected country.

In 2014, the FCC continued to pursue an aggressive modernization agenda for the universal service programs. In the E-rate Modernization Order, the Healthcare Connect Fund Order, and in the creation of the Connect America Fund, the FCC has laid out the next steps towards increased broadband connectivity. These changes have created a dynamic and exciting environment for our organization as we work to support the stated objectives of universal service through our delivery of the programs.

In 2014, the organization built upon the solid foundations set in place in 2013. USAC designed key initiatives to clarify service level agreements, enhance program integrity, and improve IT systems, making them more user-friendly and intuitive for program participants. Program teams sought to improve operations in ways that translated into more dollars out the door more quickly.

Highlights of significant accomplishments include:

- The High Cost Program completed enhancements (based on carrier feedback) to the online FCC Form 481, the annual compliance filing for carriers, in early April—well before the July 1st deadline.

- The Lifeline Program worked to make the transition for carriers using the National Lifeline Accountability Database (NLAD) as smooth as possible, establishing bi-weekly industry webinars and an e-newsletter to communicate timely information.
- The Rural Health Care Program brought all application processing functions in-house to make effective use of resources, and completed that transition by the target date of July 1.
- One of the goals of the E-rate Program in 2014 was to deliver quality decisions in record time. The program team was able to do just that, issuing decisions for nearly 95 percent of Funding Year (FY) 2014 Priority One applications and delivering commitments for nearly \$2 billion by October 1.
- USAC deployed the new online FCC Form 499-A, with a focus on making the end user's experience simple, intuitive, and predictable.

While we made good progress in 2014, we are increasing the rate of planning and investment to meet the demands of the evolving universal service policy environment and the needs of our multiple stakeholders during this time of change. Specifically, we are looking to move all applications and processes online to increase efficiency, continuity, and ease of use, most notably with the introduction of the online FCC Form 471 for the E-rate Program in FY2015. We are also improving our ability to provide high-value data to the public so as to foster better program understanding.

STATEMENT FROM THE CHAIRMAN

On behalf of the USAC Board of Directors, I want to issue a warm welcome to USAC's new Chief Executive Officer, Chris Henderson. Chris started in September and has already made a significant, positive impact on every area of the organization. Chris brings to USAC over twenty years of experience and leadership in both the private and public sectors. His unique combination of proven leadership, experiences, and history of delivering successful outcomes in complex environments makes him an excellent fit to lead USAC. We're delighted to welcome Chris as USAC's new CEO and a member of the USAC Board of Directors and we look forward to working with him in the months and years ahead.

We are creating impactful, internally-developed data analytics in an effort to empower participants and inform policy-makers. Finally, we are working to ensure that our audit and compliance efforts are as cost-effective as possible, and that we effectively translate our findings into better communications to improve success rates across the programs.

USAC is grateful for the opportunity to serve this valuable mission every day. We intend to meet the challenges and make the most of the opportunities provided by the changing environment through stakeholder-driven innovation and other business process improvements in 2015 and beyond. The ultimate measure of our success will be the success of our stakeholders and the advancement of the FCC's goals for the universal service programs.

Fund Administration

USAC operations and financial systems focused on syncing with applications systems more fully in 2014. These efforts enabled USAC to improve audit processes, increase efficiency, and more effectively communicate with stakeholders.

In 2014, USAC focused on making updates and improvements to its online filing system, E-File. With a focus on making the end user's experience simple, intuitive, and predictable, USAC deployed the new online FCC Form 499-A in late June. The new forms contain many built-in auto-verification features, along with tips and guidance throughout, designed to

enhance the user's experience. The redesigned system not only benefits filers, but it also decreases the amount of time USAC spends on processing forms.

In January 2014, USAC launched the first issue of the 498/499 Spotlight. This is a quarterly publication designed for filers of the FCC Forms 499 and 498,

With a focus on making the end user's experience simple, intuitive, and predictable, USAC deployed the new online FCC Form 499-A in late June.

providing deadline reminders, news about forms, tips, helpful guidance, and clarification on important issues, such as the Red Light Rule and the auditing process. Subscription numbers have increased steadily throughout the year, and USAC delivered the October 2014 issue to approximately 10,800 subscribers. This publication will continue in 2015.

USAC's Internal Audit Division finalized 74 audits under the Beneficiary and Contributor Audit Program (BCAP) 2013-2014 plan, examining over \$136 million in universal service funding paid to program participants. The Payment Quality Assurance (PQA) Program reviewed over 1,800 payments, and results showed that universal service programs continue to have low improper payment rates.

USAC performed an analysis of prior audit findings and used this data and other information to assist

with this development of targeted outreach materials specific to helping universal service stakeholders regarding the BCAP and PQA programs.

In an effort to keep all universal service stakeholders informed, USAC continues its commitment to deliver quality, timely communications and educational opportunities both in-person and online. USAC connected with over 455,000 people in 2014, conducting 12 live training events with over 2,100 attendees, holding 70 webinars that drew more than 18,000 participants, sending out 330 communications through email, and participating in relevant events with our program stakeholders.

Lastly, as part of a continuous "Go Green" effort, USAC reduced over 80 percent of on-site storage needs for paper financial records by transferring them to a secure database.

USAC ADMINISTRATIVE EXPENSES (UNAUDITED)

YEAR	EXPENSE RATE ²	USAC ADMINISTRATIVE EXPENSES	FCC OIG USF AUDIT PROGRAM COSTS ³	TOTAL ADMINISTRATIVE EXPENSES
2010	1.33%	\$ 102,089,000	\$ 3,337,000	\$ 105,426,000
2011	1.32%	\$ 106,542,000	\$ 205,000	\$ 106,747,000
2012	1.27%	\$ 110,880,000	\$ 0	\$ 110,880,000
2013	1.28%	\$ 106,869,000	\$ 0	\$ 106,869,000
2014 ¹	1.52%	\$ 118,921,000	\$ 0	\$ 118,921,000

² Percentage shows USAC administrative expenses divided by total authorized support.

³ FCC OIG USF audit expenses as reported in Board of Directors meetings. Does not include costs of audits done by USAC staff.

High Cost Program

In 2014, USAC implemented important tools to support the Connect America Fund transition from supporting only voice networks to preserving voice and expanding broadband availability.

In 2014, the High Cost Program focused on continued implementation of the FCC’s 2011 USF/ICC Transformation Order, which sets the framework for the transition of universal service from supporting only voice networks to preserving voice and expanding broadband availability. Designed to transition the focus of universal service from supporting voice networks to supporting and expanding broadband availability, the Connect America Fund initiatives are on track.

Critical to a successful continued implementation of the Mobility Fund is the FCC Form 690 online filing system, which launched in 2014. While the FCC deadline for the launch of this form was July 1, USAC was able to launch the form early, on April 4. USAC provided an online filing guide specific to the FCC Form 690 that walked carriers through the entire process. This online system makes it simpler and faster for carriers to file their information, and provides filers with benefits only available online, such as data validation and real-time submission confirmation.

2014 AUTHORIZED SUPPORT*

AUTHORIZED SUPPORT* BY CARRIER TYPE

Note: In 2013, Price Cap Support increased due to Connect America Phase I Incremental Support.

*Authorized Support is approved funding for disbursement for January through December 2014—it does not include recoveries from audits, appeals, or other enforcement actions.

Along these same lines and critical to the success of the Connect America Fund, the High Cost Program was able to complete the enhancements to the online FCC Form 481, the annual compliance filing for all carriers receiving High Cost Program support, before the July 1 deadline. USAC released the improvements in early April. USAC implemented these enhancements, which make the form easier to use, based on carrier feedback.

In 2014, USAC expanded this option for online filing of High Cost Program certifications to include states. Historically, only carriers were able to file online. But in the spring of 2014, USAC made the online system available for state commissions and carriers that self-certify to file their Section 54.314 annual certifications.

Providing information to High Cost Program carriers continues to be a primary focus. USAC held three webinars, with over 400 people in attendance, on how to use online forms. As a result, online filing rates averaged 67 percent—the highest online filing rates for these forms so far.

Lifeline Program

 In 2014, the Lifeline Program assisted carriers in transitioning to using the National Lifeline Accountability Database (NLAD) to verify subscribers are not already receiving Lifeline Program benefits from another carrier.

In 2014, USAC's Lifeline Program focused on making the transition to using the National Lifeline Accountability Database (NLAD) as smooth as possible for subscribers and carriers. To prevent waste, fraud, and abuse, two years ago USAC created NLAD to help detect and prevent duplicative support in the Lifeline Program. This database helps carriers keep track of their consumers who receive Lifeline Program-supported service. In the first quarter of 2014, approximately 10.61 million Lifeline Program consumers in 51 states and territories migrated into NLAD, which accounts for all states except for the opt-out states (California, Oregon, Texas, Vermont, and Puerto Rico).

USAC also established the NLAD call center to accept calls from carriers in need of assistance and to resolve subscriber-related issues for carriers. Additionally, in 2014, the Lifeline Program completed the duplicate scrubbing process for Track 1 duplicates (one Lifeline Program benefit per subscriber) and Track 2 duplicates (one Lifeline Program benefit per household).

Because establishing NLAD was such a significant and complex initiative for all carriers, USAC provided carriers with timely and useful assistance to help them incorporate NLAD into their business processes. Throughout 2014, USAC provided carriers with specific, focused NLAD guidance. The Lifeline Program created a publication, the NLAD Bulletin, to send to carriers when an NLAD-related

AUTHORIZED SUPPORT* BY CALENDAR YEAR

STUDY AREAS RECEIVING SUPPORT IN 2014

SUBSCRIBERS SUPPORTED

Note: Reflects the total number of Lifeline Program subscribers at the end of each quarter.

milestone was looming or when a database enhancement was implemented. In response to the industry's requests, USAC held weekly (and then bi-weekly) webinars so carriers had an established forum in which they could learn about NLAD updates and pose questions to USAC staff. USAC, in turn, was able to make changes and enhancements to the database, based on input from industry partners.

Meanwhile, other aspects of Lifeline Program operations continued. In late 2014, USAC launched the new online FCC Form 555, the Annual Lifeline Eligible Telecommunications Carrier Certification Form, which all eligible telecommunications carriers participating in the Lifeline Program must submit each January. USAC also held a webinar for carriers on navigating the new online form, providing tips for filing successfully. As a result, in Program Year 2014, approximately 60 percent of designated eligible telecommunications carriers successfully filed the FCC Form 555 online, up from 46 percent in Program Year 2013.

The Lifeline Program is also committed to keeping its carrier stakeholders knowledgeable about all upcoming program-related information by providing a quarterly publication that reaches more than 5,800 subscribers.

Rural Health Care Program

With the transition to in-house operations of the Telecommunications Program, all Rural Health Care Programs are now run in-house at USAC.

The Rural Health Care Program made significant operational changes in 2014 that resulted in successful outcomes for the beneficiaries of its programs: the Telecommunications and Internet Access Program, the Pilot Program, and the Healthcare Connect Fund (HCF) Program. The Rural Health Care Program brought Telecommunications Program operations in-house in 2014. All Rural Health Care Programs are now run in-house at USAC, which places knowledgeable program staff as the first point of contact for program stakeholders.

HCF Program operations and procedures continue to roll out, building review systems for the processing of HCF Program forms and hiring new staff to handle the increased workload. In 2014, the Rural Health Care Program implemented a program-wide Help Desk to direct callers to appropriate program staff with the goal of increasing response times for program inquiries and to gather feedback on program operations. The Help Desk has become increasingly user-friendly for both applicants and service providers.

The Rural Health Care Program has seen a 50 percent increase in committed dollars, from \$117.91 million in Funding Year (FY) 2012 to \$177.94 million in FY2013, and the number keeps growing. Across the board for the Rural Health Care Program, USAC received \$192.95 million in commitment requests for FY2013 and, through the end of 2014, \$100.84 million for FY2014. For the Telecommunications Program, staff sought to reduce the number of outstanding, uncommitted funding requests.

AUTHORIZED SUPPORT* BY CALENDAR YEAR

*Authorized Support is approved funding for disbursement for January through December 2014—it does not include recoveries from audits, appeals, or other enforcement actions.

HEALTH CARE PROVIDERS RECEIVING SUPPORT IN 2014

Note: Represents the total number of unique applicants with authorized support during calendar year 2014.

SERVICE PROVIDERS PARTICIPATING IN 2014

- Telecommunications, Telecom/Internet Access Programs
- Healthcare Connect Fund Program
- Pilot Program

For FY2012, the Telecommunications Program received 11,815 total funding requests. At the end of 2013, 1,636 (14 percent) remained in the processing queue. For FY2013, USAC received 11,527 funding requests and staff were able to reduce the processing queue to 100 (less than 1 percent) by the end of 2014. Rural Health Care Program staff reduced total outstanding funding requests (including both FY2013 and FY2014 forms) to 16 percent of annual funding requests submitted—a record low—and a reduction from the more than 35 percent of annual funding requests outstanding at the beginning of the calendar year.

For the HCF Program, staff continued to approve site eligibility, post requests for services, commit funding, and pay invoices. For FY2013, USAC made over \$49 million in HCF Program commitments in 2014, with \$6.98 million going to individual HCP applicants and \$32.9 million going to consortia applicants. For FY2014, USAC made over \$20 million in HCF Program commitments in 2014, with over \$3 million going to individual HCP applicants and \$17.5 million going to consortia applicants. USAC disbursed over \$9.9 million to HCF Program service providers and vendors in 2014.

From an outreach perspective, in 2014 Rural Health Care Program staff created outreach plans customized to suit stakeholders' needs. Separate quarterly webinars were held for the individual HCP applicants, for the HCPs applying as consortia, for the Pilot Program projects, and for the HCPs participating in the Telecommunications Program. During 2014, USAC communicated with over 108,000 stakeholders through email and the program's newsletter—the quarterly RHC Circuit.

Schools and Libraries Program

 In FY2014, USAC issued funding commitments faster than any previous funding year. Funding decisions for nearly 95 percent of FY2014 Priority One applications, with commitments totaling nearly \$2 billion, were issued by October 1.

One of the goals for the Schools and Libraries (E-rate) Program in 2014 was to deliver quality decisions, more quickly, to applicants and service providers. The program is pleased that it was able to meet this goal. Demand for E-rate Program support remained strong for Funding Year (FY) 2014. USAC focused on delivering timely decisions to applicants and providing effective customer service throughout the decision-making process.

In FY2014, USAC issued funding commitments faster than any previous funding year. Funding decisions for nearly 95 percent of FY2014 Priority One applications, with commitments totaling nearly \$2 billion, were issued by October 1. USAC paid nearly 98 percent of invoices within 30 days of receipt and issued decisions on a majority of appeals within 60 days of receipt. USAC also handled a large volume of phone inquiries, answering over 50,000 calls in 2014, and did so efficiently—with 96 percent of questions resolved on the first call.

In 2014, USAC received more than 48,000 applications, seeking nearly \$5 billion in E-rate Program funds. Over 96,000 schools/school districts and nearly 12,000 libraries applied. The demand for support for telecommunications, telecommunications services, and Internet access (Priority One services) totaled \$2.7 billion, a 2.9 percent decrease from the previous year. The demand for support for internal network connections and maintenance of internal network connections (Priority Two services) at schools and libraries was \$2.21 billion, a 3 percent decrease from the previous year.

E-rate Program outreach and training for 2014 included two spring trainings for 376 service providers and eight fall applicant trainings spread across the country, reaching over 1,700 applicants. Additionally, 2014 saw the launch of the E-rate Program’s webinar training series, which debuted in

APPLICATIONS FUNDED, FUNDING YEAR 2014

SERVICE PROVIDERS PARTICIPATING BY CALENDAR YEAR

November and will continue into 2015, reaching thousands of E-Rate Program participants. The SL News Brief, issued weekly, keeps program participants informed about program requirements, upcoming trainings and webinars, as well as E-rate Modernization Order updates.

The Helping Applicants to Succeed (HATS) team completed 707 HATS-type visits in 2014 via telephone and videoconference. In 2014, the HATS team initiated outreach with applicants in 50 states, Puerto Rico, and Saipan. The team provided help in a variety of subject matter areas so applicants would be successful during the application process. USAC sent a total of 21,651 emails in a series of 12 blast email campaigns. Each email included entity-specific program guidance to help applicants meet form deadlines. Additionally, the team developed 18 video tutorials to provide in-the-moment assistance during the application process. These videos are available on the USAC website to inform applicants of current program guidance.

In 2014, the FCC issued two E-rate Modernization Orders, one in July and the other in December. The first Order “took major steps to expand access to cutting-edge digital learning technologies by modernizing the E-rate Program to widely support robust Wi-Fi networks in schools and libraries” (FCC News Release, July 11, 2014). The subsequent Order built upon the first, “making more funding available for libraries and schools to purchase broadband connectivity capable of delivering gigabit service over the next five years” (FCC News Release, December 11, 2014).

As these Orders bring about major changes to the program as it exists today, the E-rate Program staff have been providing outreach to applicants and service providers regarding what the Orders mean to them and when the changes will take place.

MANAGEMENT'S DISCUSSION AND ANALYSIS

MISSION AND STRUCTURE

The Universal Service Administrative Company (USAC) is a not-for-profit corporation that was formed in 1997 to administer the federal universal service support programs and the universal service fund in accordance with Federal Communications Commission (FCC) rules.

USAC collects and distributes funds, works to protect the integrity of the universal service programs—High Cost, Lifeline, Rural Health Care, and Schools and Libraries—promotes compliance among program participants, and provides information about universal service to Congress, the FCC, program audiences, and the general public.

In all these tasks, USAC strives to provide efficient, responsible stewardship of the programs, a key national asset in making important telecommunications and Internet services available to consumers, health care providers, schools, and libraries throughout the United States.

FCC regulations governing USAC are found in Part 54 of Title 47 of the Code of Federal Regulations (47 CFR Part 54). These regulations required USAC to establish three program divisions: High Cost and Lifeline, Rural Health Care, and Schools and Libraries. The program divisions are supported by additional USAC personnel in External Relations, Finance, General Counsel, Human Resources and Operations, Information Systems, and Internal Audit. Consistent with FCC rules, USAC does not make policy or interpret unclear provisions of statutes or the FCC’s rules.

PERFORMANCE MEASURES

USAC is required to report quarterly to the FCC on performance measures pursuant to a Memorandum of Understanding signed in September 2008. This information pertains to USAC’s administration of the programs and the universal service fund.

SYSTEMS, CONTROLS, AND LEGAL COMPLIANCE

USAC has a formal internal controls structure and review process consistent with U.S. Office of Management and Budget (OMB) Circular A-123 guidance, titled “Management’s Responsibility for Internal Control,” including Appendix A (Implementation Plans). In 2014, USAC’s internal controls group continued to enhance USAC’s overall internal controls framework with a documentation and assessment program, including maintaining up-to-date policies and procedures. No material weaknesses were identified during the 2014 internal controls assessments. In addition to annual internal controls assessments, USAC contracts with an independent audit firm to perform an annual audit of its financial statements as well as agreed upon procedures in compliance with the requirements in 47 CFR Part 54. The FCC’s auditors also audit the universal service fund as part of the annual FCC financial audit.

USAC’s current financial management system is a widely used and commercially accepted accounting system. The 2014 audit of the FCC’s financial statements identified a non-compliance with the Federal Managers Financial Integrity Act of 1982. The non-compliance noted was that the financial systems of the FCC’s reporting components (e.g., USAC as the administrator of the universal service fund) do not achieve the federal financial system integration standards as determined by OMB. Although USAC’s financial systems are not currently compliant with OMB standards, we have compensating controls in place to ensure all financial data is accurate and meets the requirements of the FCC.

FINANCIAL INFORMATION

The accompanying USAC unaudited financial statements and tables are the responsibility of USAC management and reflect all necessary adjustments and reclassifications that are necessary for fair presentation of the period presented. The results for the year ended December 31, 2014, are not considered final until the 2014 financial statement audit is completed by our independent auditors. These unaudited financial statements and tables should be used in conjunction with the audited financial statements and the notes thereto for the years ended December 31, 2013, and 2012, included herein.

The table on the right presents selected data about USAC’s staffing and operations for 2014 and 2013.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of Universal Service Administrative Company:

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of Universal Service Administrative Company (the Company), which comprise the statements of financial position as of December 31, 2013 and 2012, and the related statements of operations and change in unrestricted net assets, and cash flows for the years then ended, and the related notes to the financial statements.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

DP George & Company

2121 Eisenhower Avenue, Suite 606
Alexandria, VA 22314
Telephone 703-229-4441

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2013 and 2012, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

OTHER MATTERS

Our audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. The additional supplemental schedules listed in the table of contents are presented for the purposes of additional analysis and are not a required part of the financial statements. These schedules are the responsibility of the Company's management. Such schedules have not been subject to the auditing procedures applied in our audits of the basic financial statements and, accordingly, we express no opinion on them.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we have also issued our report dated June 10, 2014 on our consideration of the Company's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations and contracts and other matters for the year ended December 31, 2013. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance and other matters. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Company's internal control over financial reporting and compliance.

Notes to Financial Statements

As of And For the Years Ended December 31, 2013 and 2012

1 ORGANIZATION AND BASIS OF PRESENTATION

The Universal Service Administrative Company (“USAC” or the “Company”) was incorporated, effective September 17, 1997, as a not-for-profit, independent, wholly-owned subsidiary of the National Exchange Carrier Association, Inc. (“NECA”), and appointed by the Federal Communications Commission (“FCC”) to administer the Universal Service Fund (“USF”) and the universal service support mechanisms. USAC’s Board of Directors consists of independent directors representing a cross-section of stakeholders in the USF and the universal support mechanisms. Pursuant to 47 C.F.R. § 54.703(a), USAC’s Board of Directors is separate from NECA’s Board of Directors and NECA is prohibited from participating in USAC’s functions.

The FCC, in its Report and Order in CC Docket Nos. 96-45 and 97-21 (“Universal Service Order”) released May 8, 1997 and November 20, 1998, respectively, determined that USAC should serve as the permanent administrator of the High Cost, Lifeline, Rural Health Care, and Schools and Libraries Universal Service Support Mechanisms, collectively referred to herein as the “Programs,” established pursuant to Section 254 of the Communications Act of 1934, as amended.

USAC, as the administrator of the USF, performs billing, collection, and disbursement functions. It also collects information regarding contributing entities’ and end-user telecommunications revenues, and submits projections of demand, administrative expenses for the Programs, and quarterly universal service contribution data to the FCC.

The functions of USAC as the administrator of the USF also include, but are not limited to, development of applications and associated instructions as needed for the Programs, administering the application process consistent with applicable FCC rules and related operational infrastructure for such processes, performing outreach and public

education functions, performing audits of contributing telecommunications carriers reporting information to USAC as required under 47 C.F.R. Part 54, Subpart H, performing audits of telecommunications carriers receiving High Cost and/or Lifeline Program benefits, and schools, libraries, and rural health care providers and beneficiaries receiving program benefits, and development and implementation of other functions unique to the Programs.

Funds collected by USAC from telecommunications carriers required to contribute to the USF pursuant to 47 U.S.C. § 254 and 47 C.F.R. § 54.706 are restricted as to their intended use related to the Programs discussed above. The cash and other financial assets USAC holds and administers for the benefit of the USF are reported at fair value in the Statements of Financial Position as assets held for the Federal USF, with an equal amount recorded as liabilities related to assets held for the Federal USF. Activities related to the USF are not presented in USAC’s Statements of Operations and Change in Unrestricted Net Assets and Statements of Cash Flows.

NECA, a related party to USAC, performs data collection functions for the High Cost Program pursuant to FCC rules and bills USAC for the associated costs. NECA is compensated by USAC in accordance with NECA’s Cost Accounting and Procedures Manual. For the years ended December 31, 2013 and 2012, the expense recognized for services rendered by NECA was \$371,110 and \$450,255, respectively. These expenses are included in contractual expenses in the accompanying Statements of Operations and Change in Unrestricted Net Assets. At December 31, 2013 and 2012, amounts due to NECA were \$43,307 and \$81,890, respectively.

The accompanying financial statements have been prepared on the accrual basis of accounting, in conformity with the accounting principles generally accepted in the United States of America.

2 SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates — The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fixed Assets — Fixed assets consist of office furniture, office equipment, computer hardware, computer software and leasehold improvements. These assets are carried at cost, net of accumulated depreciation and amortization. Projects in progress consist primarily of development costs of internal use software. If an asset acquired has a cost exceeding \$3,500 and a useful life exceeding one year, it is capitalized. Bulk purchases made in a single transaction are capitalized when a quantity of similar items individually cost \$500 or more and less than \$3,500 and where the total acquisition cost is greater than \$18,000. Capitalizable bulk purchase items include furniture and fixtures and exclude personal computers. Depreciation of furniture and equipment is calculated on a straight-line basis over the seven-year estimated useful lives of those assets. Depreciation and amortization of hardware and software are calculated on a straight-line basis over the three-to five-year estimated lives of those assets. Amortization of leasehold improvements is calculated on a straight-line basis over the shorter of the remaining period of the respective leases or estimated useful lives of the improvements. Maintenance and repairs are expensed to operations as incurred.

Receivable from the Federal USF — USAC bills the USF monthly on the basis of net cash disbursements. Collections against the receivable are collected in full from the USF by USAC at the beginning of the subsequent month.

Advance from the Federal USF – Represents cash advanced by the USF that allows USAC to make operating disbursements without placing USAC in a negative cash position. The amount is subject to adjustment to account for expected increases or decreases in cash-flow requirements.

Deferred Revenue — This represents the portion of revenues billed and/or collected through the Receivable from the Federal USF process where the corresponding expense is being recognized on the accrual basis and lags behind the disbursement used to bill revenue. Deferred revenue is typically generated by capital or prepaid disbursements.

Revenue — USAC, as the administrator of the USF, recognizes revenue when services are rendered. Revenues are equal to the cost of providing administrative support to the USF and the Programs, and to other FCC fund administrators. Such costs are paid by USF and by the other FCC fund administrators to USAC. These transactions are considered exchange transactions in accordance with the AICPA's Audit and Accounting Guide for Not-for-Profit Entities. The other FCC fund administrators provide administrative support for the Telecommunications Relay Services (“TRS”), North American Numbering Plan (“NANP”), and Local Number Portability (“LNP”) programs. USAC invoices these administrators for direct and indirect charges it incurs each month for the data collection and management functions on their behalf.

Concentration of Credit Risk — Financial instruments that potentially subject USAC, as the administrator of the USF, to concentration of credit risk consist principally of cash, cash equivalents, short-term and long-term investments, and receivables from contributors. USAC, as the administrator of the USF, places its cash, cash equivalents, and short-term and long-term investments with high quality credit institutions. USAC maintains its cash and cash equivalents with financial institutions which are federally insured under the Federal Depository Insurance Corporation Act (“FDIC”). The total deposits at these institutions are generally in excess of federally insured amounts. Deposits

in excess of federally insured amounts are fully collateralized. Collateral assets consist of Category 1 assets (Obligations issued and fully insured or guaranteed by the United States Government or a United States Government agency) and Category 2 assets (Obligations of United States Government-Sponsored Enterprises (GSEs) and Government-Sponsored Corporations (GSCs)) as defined in 31 C.F.R. 203. USAC has not experienced any losses on its cash and cash equivalents. In the normal course, USAC also has invested cash held for the benefit of the USF in U.S. Treasury securities, which are classified under Assets held for the Federal USF.

3 ACTIVITIES RELATED TO THE FEDERAL USF

As discussed in Note 1, the cash and other financial assets of the USF, which USAC administers and acts as an intermediary for, are reported at fair value in the Statements of Financial Position as assets held for the Federal USF, with an equal amount recorded as liabilities related to assets held for the Federal USF. The summary of assets applicable to the USF included below provides additional detail with respect to these amounts.

DECEMBER 31		
In thousands	2013	2012
ASSETS		
CURRENT ASSETS		
Cash and cash equivalents	\$ 699,612	\$ 648,899
Investments	1,096,620	3,115,103
Accounts receivable	1,271,726	1,391,688
Allowance for doubtful accounts	(510,550)	(558,781)
Interest receivable	11,010	5,030
Total Current Assets held for Federal USF	\$ 2,568,418	\$ 4,601,939
Fixed Assets	8,020	5,486
Investments	5,126,399	2,769,040
Total Assets Held for Federal USF	\$ 7,702,837	\$ 7,376,465

Cash and Cash Equivalents — USAC, as the administrator of the USF, considers all highly liquid securities with an original maturity of three months or less as of the financial statement date to be cash equivalents.

Short-Term Investments — USAC, as the administrator of the USF, considers all securities purchased with an original maturity of greater than three months and a current maturity of less than or equal to one year to be short-term investments. Short-term investments consist solely of United States Treasury securities with readily determinable fair values. USAC, as the administrator of the USF, accounts for its investments in accordance with investment accounting standards for not-for-profit organizations. At December 31, 2013 and 2012, there were \$1.10 billion and \$3.12 billion in short-term investments, respectively.

Long-Term Investments — USAC, as the administrator of the USF, considers all securities purchased with a current maturity of greater than one year to be long-term investments. These investments are accounted for in accordance with fair value measurement accounting standards. Long-term investments consist primarily of United States Treasury debt securities with readily determinable fair values, none of which have maturities greater than three years. At December 31, 2013 and 2012, there were \$5.13 billion and \$2.77 billion in long-term investments, respectively.

Accounts Receivable and Allowance for Doubtful Accounts — USAC, as the administrator of the USF, recognizes accounts receivable arising from amounts billed to contributors and the recovery of funds from service providers and beneficiaries, which remain unpaid. Accounts receivable are recorded at invoiced amounts and generally do not bear interest. Based on the Debt Collection Improvement Act (“DCIA”), all receivables over 90-days delinquent are transferred to the United States Treasury for collection, except for receivables where the debtor has appealed the validity of the amount owed or the debtor has sought protection under Chapter 7 or 11 of the United States Bankruptcy Code. The DCIA receivable balances transferred to the Treasury

remain as USF receivables. All receipts of DCIA transferred receivables are held by USAC for the benefit of the USF and, if collected by the FCC, are transferred to USAC for the benefit of the USF.

Gross receivables are reduced to net realizable value by the allowance for doubtful accounts, which reflects the Company’s estimate of exposure to risk of nonpayment of billed balances, determined principally on the basis of its collection experience. The allowance includes reserves for amounts on appeal, identified bankruptcies, identified inactive contributors, delinquent amounts that are referred to the United States Treasury for collection, and other items. Management periodically reviews such estimates and management’s assessment of recoverability may change based on actual results.

Accounts receivable write-offs are periodically submitted by USAC to the FCC for approval. Generally, each account has been outstanding more than five years prior to write-off consideration. USF write-off policy is determined based on the FCC Policies and Procedures Manual, Chapter 4: Accounts Receivable and Revenues, Section 360: Cancellation, Termination, Write-Off and Close-out Policy of Delinquent Debt. The Commission’s authority to write-off is set forth in 31 U.S.C. § 3711, and 31 C.F.R. Parts 902-904, Federal Claims Collection Standards (“FCCS”).

4 FIXED ASSETS

Fixed Assets as of December 31, 2013 and 2012 are as follows:

DECEMBER 31		
In thousands	2013	2012
FIXED ASSETS		
Office furniture	\$ 2,517	\$ 2,378
Office equipment	225	225
Computer hardware	7,809	6,592
Computer software	23,047	23,056
Leasehold improvements	2,602	2,405
Projects in progress	2,390	48
Total Fixed Assets	\$ 38,590	\$ 34,704
Less accumulated depreciation and amortization	(30,570)	(29,218)
Net Fixed Assets	\$ 8,020	\$ 5,486

Depreciation and amortization expense was \$2,619 and \$4,587 for the years ended December 31, 2013 and 2012, respectively.

5 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value measurement accounting standards establish a common definition for fair value to be applied to accounting principles generally accepted in the United States requiring use of fair value. These standards establish a framework for measuring fair value and expand disclosures about such fair value measurements. These standards also clarify that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability.

As a basis for considering assumptions, fair value measurement accounting standards establish a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. Fair value measurement accounting standards require that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access;

Level 2 — Inputs, other than quoted prices in active markets for similar assets or liabilities, that are observable either directly or indirectly; and

Level 3 — Unobservable inputs for which there is little or no market data, requiring the reporting entity to develop its own assumptions (i.e., separate accounts tailored and managed by a portfolio manager).

USAC utilizes the best information available in measuring fair value, and financial assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurement.

The following table summarizes the valuation of the investments according to the fair value measurement classifications as of December 31, 2013:

In thousands	US Treasuries
Total	\$ 6,223,019
Active Markets for Identical Assets (Level 1)	\$ 6,223,019
Observable Inputs (Level 2)	\$ 0
Unobservable Inputs (Level 3)	\$ 0

The following table summarizes the valuation of the investments according to the fair value measurement classifications as of December 31, 2012:

In thousands	US Treasuries
Total	\$ 5,884,143
Active Markets for Identical Assets (Level 1)	\$ 5,884,143
Observable Inputs (Level 2)	\$ 0
Unobservable Inputs (Level 3)	\$ 0

6 INCOME TAXES

USAC is a not-for-profit corporation subject to income taxes, including those that arise from the permanent and temporary differences between financial and tax accounting related to meals and entertainment expense, compensated absences and depreciation. Income taxes for 2013 and 2012 are not material and are included as a component of general and administrative expenses.

7 COMMITMENTS AND CONTINGENCIES

Fixed Contract Commitments

Bank of America Agreement — On June 10, 2013, USAC entered into an agreement with Bank of America (“Bank of America Agreement”) for banking and investment management services. The Bank of America Agreement is a two-year contract that runs from July 1, 2013 to June 30, 2015, with an additional three option years that can be exercised at the discretion of USAC. Under the agreement, Bank of America provides banking and investment management services for a fixed monthly contractual amount. Fees for banking and investment management services under the arrangement total \$1.5 million per year. The Bank of America contract is a cancellable agreement.

Solix Agreement — Solix, Inc. provides to USAC contracted program operations services for the Schools and Libraries and Rural Health Care Programs. On March 27, 2012, USAC signed a contract extension with Solix for a period of two years or until June 30, 2014. The future contractual required payments for the period January 1, 2014 through June 30, 2014, under the Agreement for both the Schools and Libraries and Rural Health Care Programs total \$21.2 million. On March 27, 2014, USAC signed a contract extension with Solix for a period of two years or until June 30, 2016. The future contractual required payments for the period July 1, 2014 through June 30, 2016, under the Agreement for the Schools and Libraries Program total \$58.5 million.

Lease Commitments

USAC leases its office space under an operating lease agreement expiring on November 30, 2020. At December 31, 2013, the future minimal

rental payments under these leases are as follows (in thousands):

2014	\$ 3,421
2015	3,224
2016	3,956
2017	4,064
2018	4,167
2019	4,272
2020	4,006
TOTAL	\$ 27,110

Rent expenses under operating leases were \$3.4 million and \$3.2 million for the years ended December 31, 2013 and 2012, respectively.

Legal Disputes

The Company (USAC) is presently not involved in legal proceedings and claims where the company is a defendant. The Company reports matters where the value of a claim asserted by or against the Company exceeds \$500,000 or more for an individual matter, or for matters relating to the same plaintiff or defendant that in the aggregate amount to \$500,000 or more. The Company reports the following matter that is now closed:

- A complaint was filed against the Company on December 28, 2007 by a Schools and Libraries Support Mechanism service provider (plaintiff) in Texas alleging the Company failed to make payments on approved funding requests for a support mechanism applicant. Plaintiff seeks to recover liquidated damages of approximately \$778,000 plus exemplary damages of three times this amount. On September 22, 2008, the United States District Court for the Southern District of Texas dismissed plaintiff’s claim without prejudice. Plaintiff appealed the district court’s decision to the United States Court of Appeals for the Fifth Circuit. In addition, plaintiff appealed the Company’s decision to withhold program funding to the Federal Communications Commission pursuant to 47 C.F.R. Part 54, Subpart I. On August 28, 2009, the FCC Wireline Competition Bureau (Bureau) released an order (DA 09-1946) affirming the Company’s decision and directing

plaintiff and the Company to take certain actions toward resolving the matter. Plaintiff then filed a Petition for Reconsideration of a portion of the Bureau’s decision with the Commission on September 27, 2009. On July 1, 2010, the Deputy Chief of the Bureau released an order (DA 10-1244) denying plaintiff’s petition for reconsideration of the Bureau’s August 28, 2009 decision. On July 30, 2010, plaintiff filed a petition requesting that the FCC reverse the Bureau’s July 1, 2010 order. On January 10, 2012, the FCC issued an order (FCC 12-08) denying plaintiff’s petition and holding that Company acted appropriately. On March 8, 2012, the Fifth Circuit Court of Appeals vacated the district court’s dismissal of plaintiff’s complaint and remanded the case back to the district court for adjudication of the state law tort claims. On July 7, 2012, the Company answered plaintiff’s amended complaint and also filed a motion requesting the court grant summary judgment in Company’s favor.

On March 29, 2013, the court dismissed plaintiff’s suit without prejudice because plaintiff had failed to adequately and timely prosecute its claims. This matter is now closed and will not be reported in the future.

8 RETIREMENT PLANS

USAC has a 401(k) Retirement Savings Plan covering all USAC employees. The plan is both contributory and noncontributory and all contributions are subject to certain limitations as prescribed by the plan document and government regulations. Employees are immediately vested in the employer contribution, which is funded on a current basis. Employer contributions charged to operations were \$3.3 million and \$2.8 million through December 31, 2013 and 2012, respectively.

9 SUBSEQUENT EVENTS

USAC has performed an evaluation of subsequent events through June 10, 2014, which is the date the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT

on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

2121 Eisenhower Avenue, Suite 606
Alexandria, VA 22314
Telephone 703-229-4441

To the Board of Directors of Universal Service Administrative Company:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Universal Service Administrative Company (the Company) which comprise the statement of financial position as of December 31, 2013, and the related statements of operations and change in unrestricted net assets, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated June 10, 2014.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit, we considered the Company's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any

deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

We noted certain additional matters involving internal control over financial reporting that we will report to the Company's management in a separate letter.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the Company's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations and contracts, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Company's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

2014 UNIVERSAL SERVICE PROGRAM STATISTICS

The following pages contain data from the four universal service programs administered by USAC. To better understand the data, please note the difference between authorized support and funding commitments, as well as funding year versus calendar year.

FUNDING YEAR

For the Rural Health Care and Schools and Libraries programs, a funding year runs from July 1 to June 30 of the following year.

CALENDAR YEAR

The High Cost and Lifeline programs disburse funds on a calendar year basis. Data in these tables are for calendar year 2014.

AUTHORIZED SUPPORT

Authorized support represents funding that has been approved for disbursement for January through December 2014. It does not include recoveries from audits, appeals, or other enforcement actions during that timeframe.

FUNDING COMMITMENTS

Funding commitments are not disbursements. Funding commitments are issued by the Rural Health Care and Schools and Libraries programs via commitment letters that approve what will be funded through support for a particular funding year.

Commitments made in calendar year 2014 may be for applications filed during previous funding years and/or the current funding year.

RURAL HEALTH CARE AND SCHOOLS AND LIBRARIES PROGRAMS

Period	Start Date	End Date
Funding Year 2012	July 1, 2012	June 30, 2013
Funding Year 2013	July 1, 2013	June 30, 2014
Funding Year 2014	July 1, 2014	June 30, 2015

2014 Authorized Support by Program

Note — High Cost Model and Interstate Access Support were eliminated in January 2012; Local Switching Support was eliminated in July 2012. Numbers may not add due to rounding.
¹Frozen Support includes frozen Price Cap Support and frozen CETC Support.

² Authorized Support includes all funding approved for disbursement for the months of January-December 2014, including funding approved but not yet disbursed (due to the Red Light Rule). It does not include recoveries from audits, appeals, or other enforcement actions.
³ Total Support includes all funding approved for disbursement and is reflective of recoveries from audits, appeals, or other enforcement actions, as of December 31, 2014.

The Universal Service Administrative Company (USAC) is a not-for-profit corporation designated by the Federal Communications Commission (FCC) as the administrator of universal service. USAC collects and distributes funds, works to protect the integrity of the universal service programs, promotes compliance among program participants, and provides information about universal service to Congress, the FCC, program stakeholders, and the general public.
