Notes from USAC's Tribal Liaison

After many discussions with Tribal stakeholders and service providers, specifically after the sunsetting of the Affordable Connectivity Program, it became clear that there were opportunities to improve web content to better support service provider participation in the E-Rate program and other Universal Service Fund programs.

After months of work and lots of collaboration, USAC has launched an updated version of the [E-Rate Service Provider Process](#) webpages to ensure the process is clear and concise for service providers to participate in the E-Rate program. Some of the major changes include:

- Ensuring titles of each step of the participation process accurately reflect the key activities within each step.
- Simplifying content in a way that can be replicated across other USAC programs for similar process requirements.
- Incorporating links to additional information and expandable menus to reduce page scroll.
- New resources, including a [timeline](#) on E-Rate annual activities specific to each funding year, an [infographic](#) on selecting an E-Rate invoicing method, and an updated Service Provider Identification Number (SPIN) [checklist](#) for new Tribal Service Providers.

And this is just the beginning! Stay tuned for more updates coming to Service Provider content across other USAC programs.

Category Two Funding Floors and Multipliers for Next Funding Cycle

The Wireline Competition Bureau (WCB) issued a public notice on June 4, 2025 ([DA 25-471](#)) announcing the Category Two (C2) multipliers and funding floors for the upcoming five-year budget cycle that starts in Funding Year (FY) 2026 and runs through FY2030. For the FY2026-2030 cycle, the C2 budget funding floor is adjusted from \$25,000 to \$30,175. For Tribal libraries, the funding floor is adjusted from \$55,000 to \$66,385.12. The school and school district C2 budget multiplier is adjusted from \$167 per student to \$201.57 per student, and the library and library system C2 budget multiplier is adjusted from \$4.50 per square foot to \$5.43 per square foot. Applicants will be required to validate their student counts or library square footage in the first year they apply for C2 support during the FY2026-2030 cycle.

Get Ready for FY2025 Invoicing

After USAC has committed funding and processed your [FCC Form 486](#) (Receipt of Service Confirmation and Children's Internet Protection Act (CIPA) Certification Form), you or your service provider can begin the process of invoicing USAC for the discounted share of costs for the approved eligible equipment and services (see [Filing the FY2025 FCC Form 486](#) in May's News Brief). USAC can process invoices from either the applicant or the service provider after the following occur:

- USAC has issued a Funding Commitment Decision Letter (FCDL) with a positive funding commitment.
- Services have started or the equipment has been delivered (USAC can process invoices for payments after review of the contract if it includes a specific payment schedule).
- The applicant has submitted, and USAC has successfully processed, an FCC Form 486.
- The service provider has filed an [FCC Form 473](#) (Service Provider Annual Certification (SPAC) Form) for the relevant funding year.

As a reminder, there are [two methods](#) that can be used to invoice USAC. Once USAC has processed an invoice for a Funding Request Number (FRN), the method of invoicing chosen must be used for that FRN for the remainder of the invoicing process.
