Recommended for: Applicants and service providers

E-rate Experience Level: All levels

12/14/2018 – Focus on Participant Experience

USAC is continuing its ongoing efforts to better serve E-rate participants by adding extra applicant and service provider support and implementing enhancements to improve the experience for the E-rate community. As the end of the calendar year approaches, while we are committed to addressing as many open participant issues as possible before 2019, we appreciate the E-rate community's patience and cooperation as we work open cases.

Some of these open cases may require a change in reviewers once USAC transitions to its new vendor for E-rate business process operations later this month. All review activities, including program integrity assurance (PIA), appeals, funding commitment waves and payments, will continue during the transition.

USAC will reach out to E-rate participants that have active applications, invoices or post-commitment requests, to share additional information about any changes related to the transition to the new vendor. We will continue to share information with affected participants by email, especially if the transition to the new vendor will impact those participants' open E-rate activities. For example, beginning in January, all open forms and requests (including invoices, appeals and post-commitment requests) will be assigned to new reviewers.

USAC is aware that some E-rate participants have open, inactive forms and requests pending with the program. These items will also transition to the new team and participants will receive outreach at a later time.

We appreciate the support and cooperation of the E-rate community as we work with our new vendor on these adjustments.

NOTE: The E-rate Productivity Center (EPC) will not be affected by this maintenance.

12/12/2018 – Focus on Participant Experience

In 2018, USAC improved the E-rate Program's operational efficiency by refining EPC to process applications more quickly and adjust to large volumes. As we look toward 2019, we will build on those advances with a steady focus on strengthening the E-rate participant experience.

We will serve participants better by adding extra applicant and service provider support, transitioning our E-rate business process operations and implementing enhancements to create a better experience for the E-rate community. USAC has expanded our participant support teams to ensure a smooth and orderly transition process with minimal impacts on the E-rate community.

E-rate participants with open applications, invoices or post-commitment requests will receive additional information to help guide them through the transition. USAC is working hard to address as many open participant issues as we can before the end of the year, and we appreciate the E-rate community's patience as we analyze and work open cases.

Most participants will not notice any changes in their E-rate experience during the transition and will see customer service improvements when it is complete.

3/1/2018 – Reminder on March 5, 2018 Invoice Deadline for Program Participants Impacted by the Hurricanes

In order [DA 17-984](#) , the Federal Communications Commission (FCC) provided certain relief from program deadlines for program participants impacted by Hurricanes Harvey, Irma, and Maria (Hurricanes).

Specifically, schools and libraries located in areas of Texas, Florida, Georgia, Puerto Rico, and the United States Virgin Islands that have been designated as Major Disaster Areas eligible for Individual Assistance for the purposes of federal disaster relief by the Federal Emergency Management Agency (FEMA) have a deadline of Monday, March 5, 2018 to submit invoices if they missed or will miss their regular invoice deadline due to damage or disruption caused by the Hurricanes.

While other program forms and requests are subject to this deadline as well, applicants are reminded that they need a Personal Identification Number (PIN) to file the FCC Form 472, Billed Entity Applicant Reimbursement (BEAR) Form. If you do not have a PIN, we will create and email you a PIN in time to file your invoice as long as we receive your request by noon EST tomorrow, March 2, 2018.

To request a PIN:

- Open a customer service case in EPC.
- Download the [PIN Template](#)  from the [PIN page](#) on the USAC website, even if you only need one PIN.
- Complete a line on the template for each PIN you are requesting. Avoid adding a space at the beginning or end of each of your entries, and double-check your entries for accuracy.
- Attach the completed template to your customer service case and click Submit.

You can also call the Client Service Bureau (CSB) at 888-203-8100 for assistance.

2/28/2018 – USAC Website Outage for Scheduled Maintenance on Friday, March 2

USAC's website (www.USAC.org) will be unavailable due to scheduled website maintenance on **Friday, March 2 from 9 p.m. to 9:30 p.m. ET.**

During this outage, the entire site will be converted to Hypertext Transfer Protocol Secure (HTTPS).

After the deployment, users will notice that all www.USAC.org web pages are preceded by "HTTPS" in their URLs. Existing bookmarks to non-HTTPS addresses will continue to work but will automatically be redirected to the HTTPS address.

Please note, some USAC applications may not be available during the outage. We apologize for the inconvenience.

Why are we making this change?

HTTPS protects the integrity of the website by preventing intruders from tampering with communications between the website and users. It guards both visitors and websites by encrypting and securing the information being sent and received while improving performance through faster load times.
