

How can I find the urban or rural status of my school or library?

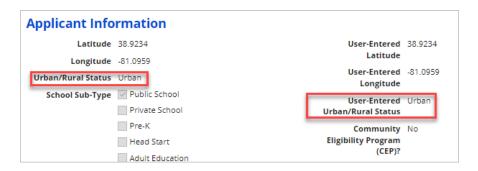

An individual school or library is designated as

- **Urban** if located in an "Urbanized area" or "Urban cluster" area with a population greater than 25,000, as determined by the most recent classification by the U.S. Census Bureau.
- Rural if located in an area other than an Urban area as defined above.

There are three methods to check urban/rural status within the E-Rate program.

For existing E-Rate entities, find your entity's Urban/Rural status within your E-Rate Productivity Center (EPC) account

- 1. Log in to EPC.
- 2. Navigate to your entity's profile page by clicking on the entity number. **Organization Details** screen opens.
- 3. Scroll down and review the **Urban/Rural status** fields. The system-verified status is on the left. (see below)

For new entities, find your Urban/Rural status by calling the Client Service Center

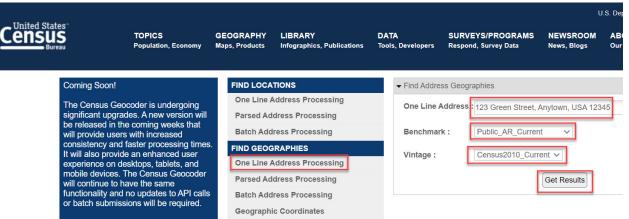

- 1. Call (888) 203-8100.
- 2. A USAC representative will take down your entity profile details, including address, and check determine the Urban or Rural status of the entity as your profile is created in EPC.

New or existing entities can also find their Urban/Rural status using Census.gov (if your entity is not in EPC yet and you are not ready to set up an EPC profile)

- 1. Navigate to https://geocoding.geo.census.gov/geocoder/geographies/coordinates
- Under Find Geographies, Click One Line Address Processing. Find Address Geographies box opens. Complete the sections as follows:
 - o In the One Line Address field, enter the address of your entity.
 - In the Benchmark dropdown, select Public_AR_Current.

- In the Vintage dropdown, select Census2010_Current.
 - Urban/Rural status for FY2022 is determined using 2010 Census data.
- o Click Get Results. (see below)

- 3. Review the results in the UR field under Census Blocks.
 - If a UR field contains U, your site is Urban
 - If a UR field contains R, your site is Rural
