High Cost Universal Broadband (HUBB) Portal

A system that collects the geographic coordinates (latitude and longitude) of locations where carriers are deploying broadband using CAF support

- A tool for collecting location-specific service availability data from carriers across all Connect America Fund (modernized) programs – millions of individual records
- Real-time validation of data submissions
- Serves as a platform for verification and compliance
- Provides the foundation for the CAF Map, a public map that shows the impact of CAF funding on broadband expansion across rural America
- Source of broadband deployment data for state PUC officials
- Began with the July 2017 filing for Price Cap carriers, followed by March 2018 and March 2019 filings for carriers participating in multiple modernized funds
- Next HUBB filing deadline is March 2, 2020
HUBB Filing Obligations by Fund

Carriers participating in the following funds have until March 2, 2020 to file geolocation data for all locations deployed in 2019:

- **Connect America Fund (CAF) Phase II:** CAF II carriers must be at least 80 percent of the way deployed toward their total build-out obligations by the end of 2019 or face potential loss of support. This 80 percent build-out milestone applies in each state where the carrier receives support.
- **Alternative Connect America Cost Model (A-CAM), Revised ACAM and ACAM II**
- **Connect America Fund-Broadband Loop Support (CAF-BLS):** All CAF-BLS carriers must file in the HUBB
- **Rural Broadband Experiments (RBE)**
- **Alaska Plan** (other than carriers with individualized performance plans that only require them to maintain service at existing levels)
- **CAF Phase II Auction** (optional)

Carriers that did not deploy any locations in 2019 must still log into the HUBB and certify "no locations to upload" by March 2, 2020.
Funds New to the HUBB

Several funds are new to the HUBB this year:

- **Revised A-CAM**
- **ACAM II** (ACAM II carriers have until March 1, 2021 to report pre-2019 broadband deployment)
- **CAF Phase II Auction** (optional - not required to file during the current window)

Also new this year: **all CAF-BLS carriers are now subject to HUBB reporting obligations and have until March 2, 2020 to report broadband deployment completed in 2019**

- This includes **CAF-BLS** carriers that were previously exempt from HUBB reporting obligations because they had already built out 10/1 Mbps broadband to at least 80 percent of their study area
- These carriers have until March 1, 2021 to report pre-2019 broadband deployment at speeds of at least 25/3 Mbps completed since May 25, 2016
HUBB Data Filing Process

Compile Data
- Use templates to compile location data, using Geolocation best practices

Enter Data
- Upload template with location data to the HUBB

Validate Data
- Location data validated by HUBB – address any errors or warnings

Certify Data
- Certifying Officer certifies location data in the HUBB

Certify Milestone
- Certifying Officer certifies milestone in the HUBB (if applicable)
HUBB Tips for Success

• Collect accurate location data – use geo-location best practices
• Start filing early to identify and fix any data errors
• Ensure all of your users can successfully log into HUBB
  • Contact your company officer for updates to user accounts
• Check the version of your Internet browser
  • Check Help for currently supported versions
• Download and use the most current version of the template
  • Found in HUBB and on HUBB resource page
• Make sure to Certify your data and milestone (if applicable) after it has been saved
HUBB Bulk Data Modifications and Deletions

- Ability to change or delete multiple HUBB location records at once
  - Single location changes still available
- Separate CSV Templates for Modifications, Deletions and Additions (current)
- Modifications – changes to data fields for previously certified deployment locations
  - Speed Tier, Address, City, State, Zip Code, Carrier ID
  - Date of Deployment – Month and Day – (Year Requires FCC Approval)
  - Latitude and Longitude – within specific distance (≤ 36 ft)
- Modifications & Deletions Must be Uploaded by Certifying Officer
- Deletions – removing previously certified deployment locations and replacing them
  - Changes to Deployment Year considered a deletion
  - Changes to Latitude and Longitude greater than specific distance (> 36 ft)
  - Reason required for all Deletions
  - For Deleted Locations – Resubmit New Locations
Manage Uploads

Use the form entitled CSV Template to upload data. For more information on how to use these and how to format your data, click on Detailed Instructions and Filing Guidance Q&A. For bulk deleting data from previously uploaded file, use the form entitled Bulk Deletion Template. For bulk updating data from previously uploaded file, use the form entitled Bulk Modification Template.

Deployment Year
2021

I certify that I am an officer of the reporting carrier
630323 - UNITED UTILITIES INC.

To the best of my knowledge, the information submitted to USAC and certified in the filing for this deployment report is accurate and information submitted to USAC and certified in earlier filings for the broadband deployment report continues to be accurate.

In the Deployment Year selected, the reporting carrier(s) did not deploy to any locations in eligible areas in satisfaction of its (their) public interest obligations (for example, if you selected 2018 in the drop down above, you are certifying that from January 1, 2018 to December 31, 2018, the reporting carrier(s) did not deploy to any locations in eligible areas in satisfaction of its (their) public interest obligations.)
