

## National Lifeline Accountability Database (NLAD) v3.18.0 Pre-Production Release Notes

### Two New UI Error Messages

New error message during verify transactions:

- TPIV Webservice: Subscriber is identified as deceased.

New error message during enroll and transfer transactions:

- TPIV\_FAIL\_DECEASED: Subscriber is identified as deceased.

### One New API Error Message

- TPIV\_FAIL\_DECEASED: Subscriber is identified as deceased.

### One New Argument for POST/Resolution/Submit Request

- Field name: fullNameDeceasedTCode
- Field description: Full Name Deceased Error Resolution Code
- Data description: Resolution error codes are required to complete a dispute resolution submission. These codes reference specific NLAD failures relating to third party identity verification (TPIV) errors.
- Required status: Conditional
- Conditional requirements: Required if transaction error = TPIV\_FAIL\_DECEASED
- Type: Alpha-numeric
- Format: T14, T16, T18, T19, T20, T21, T22
