USAC: Who We Are

The Universal Service Administrative Company
USAC Overview

• The Universal Service Fund exists to ensure that all people in the United States have access to quality, affordable connectivity service.

• USAC is an independent, not-for-profit organization designated by the Federal Communications Commission (FCC) as the permanent administrator of the Universal Service Fund and its four programs.

- **Lifeline Program**: Discounted phone and internet service to eligible low-income consumers.
- **High Cost Program**: Reduced rates for telecom and broadband services in eligible high-cost areas.
- **Schools and Libraires Program**: Funding for broadband services to eligible schools and libraries.
- **Rural Health Care Program**: Funding for telecom and broadband services for eligible rural health care providers.

COVID-19 Response
Temporary Program Changes
COVID-19 Response

• FCC and USAC released a series of waivers to ensure that consumers have access to the connectivity services they need during the pandemic

• Most of these temporary changes, with the exception of the waiver of the FCC's non-usage rule, are now set to expire on June 30, 2021
  • The FCC has limited the waiver extension timeframe associated with the non-usage requirement so that it does not extend beyond May 1, 2021

• More information on USAC’s Lifeline COVID-19 Response webpage
COVID-19 Response

• **More flexibility** for consumers

  • Adjusted the income and identification documentation requirements to allow individuals recently unemployed or social distancing due to the pandemic to more easily complete their Lifeline application
COVID-19 Response

• **Continued service** for consumers
  • Lifeline recertification, reverification, and general de-enrollment requirements paused through June 30, 2021, to ensure Lifeline subscribers are not involuntarily de-enrolled from the program
  • **Reminder**: Non-usage waiver requirement expires May 1, 2021
COVID-19 Response

• **State agency access** to the National Verifier

• Expanded access to the National Verifier to enable state agencies to assist consumers with the Lifeline application process during the pandemic, much like Lifeline service providers do today
COVID-19 Response

• More flexibility for consumers residing in rural areas on Tribal lands
  • FCC temporarily waived its rules to allow Lifeline providers to begin providing service to eligible consumers residing in rural areas on Tribal lands even if those consumers have not yet submitted certain supporting documentation to complete their Lifeline application
  • The consumer will then have 45 days to submit their documentation to maintain their Lifeline benefit

Emergency Broadband Benefit Program (EBB Program)

Quick Introduction
Emergency Broadband Benefit Program (EBB Program)

Eligible consumers can receive:

- Up to $50/month discount for broadband services
- Up to $75/month discount for broadband services for households on qualifying Tribal lands;
- A one-time discount of up to $100 for a laptop, desktop computer, or tablet supplied through a participating provider (consumer co-pay of more than $10 and less than $50 required)

The Emergency Broadband Benefit is limited to one monthly service discount and one device discount per eligible household.

Program is temporary and expires when funds are exhausted or six months after the Department of Health and Human Services (HHS) declares the end of the COVID-19 health emergency.
Eligibility Criteria

Households can qualify for the EBB Program by showing that at least one member of their household meets one of the following criteria:

1. Qualifies for the FCC’s Lifeline program, including those who are on Medicaid or receive SNAP benefits,

2. Approved for the free or reduced-price school breakfast/lunch program, including through the USDA Community Eligibility Provision,

3. Experienced substantial documented loss of income since February 29, 2020 and the household had a total income in 2020 below $99,000 for single filers and $198,000 for joint filers,

4. Received a federal Pell Grant in the current award year, or

5. Qualifies for a participating provider’s existing low-income or COVID-19 relief program, subject to FCC approval of that provider’s eligibility process.
**EBB Program Requirements**

- Broadband service plans that were available as of December 1, 2020 are eligible for reimbursement.

- Broadband providers, including those that have not been designated as eligible telecommunications carriers (ETCs), can participate in the EBB Program after filing an Election Notice with USAC. Non-ETCs must receive FCC approval to participate in the program prior to filing their Election Notice.

- EBB Program service providers will use the Lifeline National Eligibility Verifier (National Verifier) to check consumer eligibility and will use National Lifeline Accountability Database (NLAD) and Lifeline Claims System to enroll subscribers and submit reimbursement requests. Providers with existing low income or COVID-19 programs can seek FCC approval to use an alternative eligibility verification process.

- The FCC expects the Emergency Broadband Benefit program to be open to eligible households before the end of April 2021. Please check the FCC’s website, [www.fcc.gov/broadbandbenefit](http://www.fcc.gov/broadbandbenefit), regularly for the latest information.
