Teodora Dimitrov

Manager of Communications

Agenda

- Lifeline Program Overview
- Audits & Assessments
- Common Audit Findings
- Resources

- Universal Service Administrative Company (USAC) is an independent, not-for-profit organization designated by the Federal Communications Commission (FCC) as the administrator of the Universal Service Fund (USF) and its four programs.
 - The USF aims to ensure that all people in the United States have access to quality, affordable connectivity service.
 - The FCC develops policies and regulations for all four programs and provides guidance to USAC.
 - USAC administers the programs and educates stakeholders on processes, systems, and rules and requirements.

Rules

- Lifeline program requirements are based on the FCC rules in 47 C.F.R. Sections 54.400-423.
- The FCC also releases <u>Orders</u> to clarify program requirements.
- As the Lifeline administrator, USAC is responsible for the following:
 - Confirming consumer eligibility
 - Recertifying subscribers
 - Managing the Lifeline Support Center
 - Educating stakeholders on processes, systems, rules, and requirements

Service Provider Role

- Service providers are responsible for complying with <u>program rules</u>, including:
 - Registering for Representative IDs in the <u>Representative Accountability Database (RAD)</u> to perform applicable transactions.
 - Ensuring Lifeline eligible consumers have qualified through the <u>National Verifier</u> where applicable.
 - Enrolling Lifeline qualified consumers in the <u>National Lifeline Accountability Database</u>
 (<u>NLAD</u>), ensuring that enrolled subscribers are not currently enrolled with another service provider, and keeping NLAD up-to-date.
 - Submitting claims to receive reimbursement in the <u>Lifeline Claims System (LCS)</u>.
 - Preparing forms and annual filings (<u>FCC Form 555</u> and <u>FCC Form 481</u>).

Service Provider Role (Cont.)

- Providing Lifeline subscribers with Lifeline-supported services that meet Lifeline's minimum service standards.
- Advertising Lifeline to their consumers.
- Providing USAC and auditors with correct information and documentation in response to program integrity, Payment Quality Assurance (PQA) assessments, and audit requests.
- Tracking Lifeline subscriber's usage.
- De-enrolling ineligible consumers.
- Documenting compliance with FCC and state requirements.
- Avoiding distributing financial incentives to enrollment representatives (including third-party agents).

- Beneficiary and Service provider audits may be performed by:
 - The Beneficiary and Contributor Audit Program (<u>BCAP</u>)
 - USAC's Audit and Assurance Division (AAD)
 - FCC Office of Inspector General (OIG)
 - Offices of other federal agencies
 - A firm under contract to USAC or the FCC
 - A firm under contract to the Eligible Telecommunications Carrier (ETC) (e.g., Biennial audits)

- Lifeline program audit types include:
 - Beneficiary and Contributor Audit Program (<u>BCAP</u>)
 - Audit firm hired by USAC AAD
 - FCC Office of Inspector General (OIG)
- Service providers might also be required to obtain a third-party biennial audit of their compliance with program rules.
- Lifeline program assessments include:
 - PQA in which USAC provides the FCC with information about improper payments to program beneficiaries.

- USAC obtains documentation from providers to evaluate program compliance including:
 - Number of subscribers claimed for reimbursement
 - Amount claimed per subscriber
 - Beneficiary eligibility to receive Lifeline program support
 - Subscriber eligibility to receive Lifeline program support
 - Lifeline program support passed through to subscribers
 - Adequacy of advertising efforts
 - Compliance of minimum service standards
 - Subscriber in designated ETC area(s)
 - Usage
 - Enrollment representative commissions

Audit Process Overview

1 Planning

2 Testing

3 Reporting

The audit announcement, entrance conference, and beneficiary receives data.

Documentation review, beneficiary inquiries, documentation questions, sample selection, and site visit (if applicable).

Draft findings, exit conference, audit survey, and final audit report.

PQA Process Overview

1 Planning

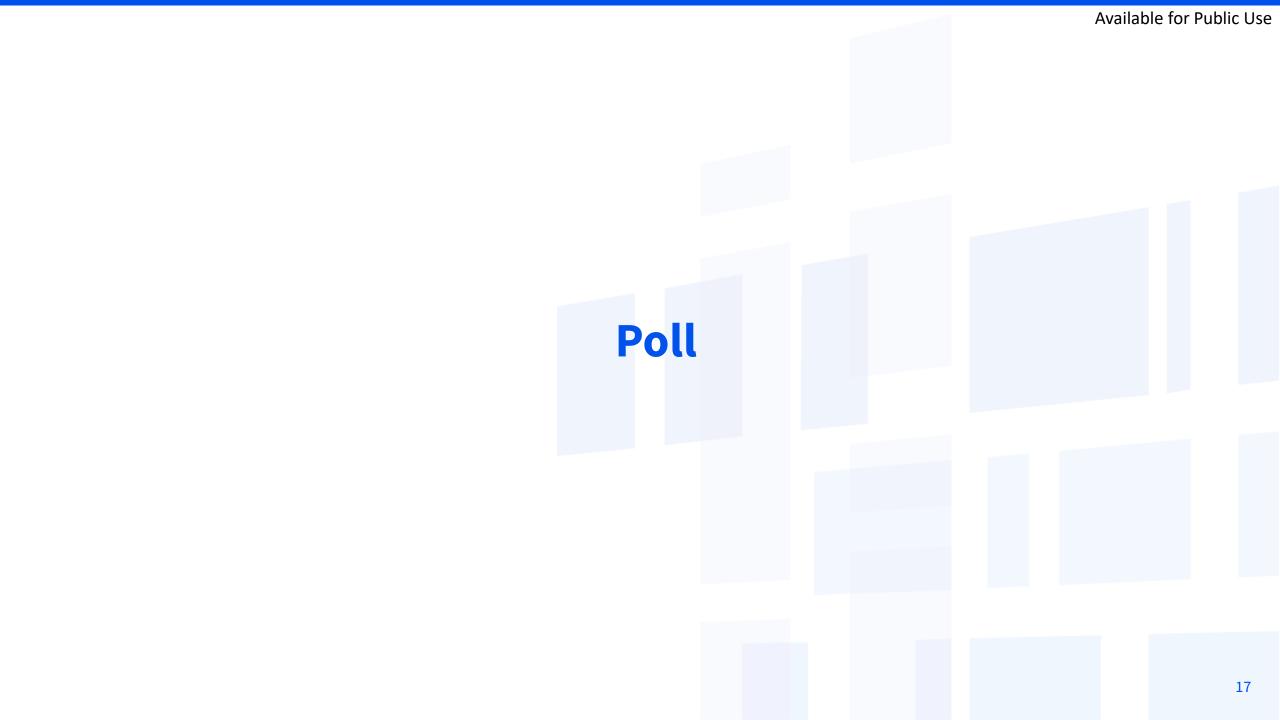

2 Testing

3 Reporting

Receive PQA notification letter and provide requested documentation.

Documentation review.

Final closure email to service providers, calculation and reporting of improper payments, and assessment survey.

Questions?

- Improper Non-Usage
- Lack of Documentation Pass Through
- Improper Pass Through of Lifeline Program Support
- Inadequate Eligibility Documentation
- Improper De-Enrollment
- Enrollment Representative Commissions

Non-Usage Rules

Lifeline service providers are required to:

- Have an effective process for identifying subscribers that have not completed valid usage defined in <u>47 C.F.R. § 54.407(c)</u> within 30 consecutive days, if the ETC does not <u>assess and collect</u> a monthly fee from the subscriber.
- After 30 days of a subscriber's non-usage, issue a notice to subscribers, using clear and easy-to-understand language, stating that failure to use the Lifeline service within 15 days (cure) will lead to service termination.
- Not claim reimbursement after 30 consecutive days of non-usage (including during the 15-day cure period) for subscribers who have not used the service, unless the subscribers cure the non-usage, after which the ETC may seek reimbursement (i.e., the ETC can revise its claim upward).

Non-Usage Rules (Cont.)

Lifeline service providers are required to:

- De-enroll subscribers that have not used their service in 45 consecutive days.
- Retain documentation to demonstrate that an effective non-usage process is in place.
- Retain records of proper usage activities (if service provider plans to seek reimbursement).

Improper Non-Usage Example #1

Example Prevention

 Charging a consumer an upfront or annual fee to initiate service and later deducting from the initiation fee to record a monthly payment. If a monthly fee is not assessed and collected from a subscriber, the provider must implement a process for identifying subscribers that have not used their service in 30 consecutive days.

Improper Non-Usage Example #2

Example	Prevention
 Encouraging consumers to overpay on their account to generate an account credit and later apply that credit amount towards a monthly payment. 	 If a monthly fee is not assessed and collected from a subscriber, the provider must implement a process for identifying subscribers that have not used their service in 30 consecutive days.

Improper Non-Usage Examples #3

Example Prevention

 Assessing account activity as usage if the consumer completes an inbound call from a service provider, activates call forwarding, or forwards a voicemail deposit. Service providers must adhere to the qualifying usage activities below that define Lifeline service usage:

- Completion of an outbound call or usage of data.
- Purchase of minutes or data from the ETC to add to the subscriber's service plan.
- Answering an incoming call from a party other than the ETC, ETC's agent, or representative.
- Responding to direct contact from the ETC and confirming that he or she wants to continue receiving Lifeline service.
- Sending a text message.

Improper Non-Usage Example #4

Example Prevention

 Claiming a subscriber who has not cured their nonusage during their 15-day cure period. If a subscriber does not use their service during the 15-day period, the service provider may not claim reimbursement for this time. If a subscriber uses their service (as defined in 47 § 54.407(c)) during the 15-day period, the service provider should retroactively claim the subscriber for that service period.

Improper Non-Usage Examples #5

- Service providers failing to retain detailed documentation to prove subscriber usage within 30 consecutive days.
- Service providers must maintain the documentation for as long as the subscriber receives Lifeline service from the service provider, but for no less than three full preceding calendar years.
- This requirement is not waived if a service provider no longer has access to the system(s) that houses the data (e.g., transfers in ownership, retirement of a legacy system, changes in third-party providers, etc.).

Lack of Documentation — Pass Through Rule

- Service providers are required to maintain records to document compliance with all Commission and state requirements for at least three full preceding calendar years and to maintain the documentation for as long as the subscriber receives Lifeline service, but no less than three years, § 54.417(a).
- This documentation includes records that prove the service providers pass through the benefit to the subscriber.

Lack of Documentation — Pass Through Rule Examples #1

- Service providers are unable to provide documentation to demonstrate the monthly replenishment of minutes/data on subscriber accounts.
- Service providers should ensure their systems can provide the level of documentation when asked.

Lack of Documentation — Pass Through Rule Examples #2

- Service providers are unable to provide documentation to demonstrate a systemgenerated report showing at a minimum, Lifeline subscriber information to match subscriber claimed, and the amount of Lifeline credit that was applied to their bill for each month of the audit period.
- Service providers should ensure their systems can provide the level of documentation necessary when requested by USAC or auditors.

Lack of Documentation — Pass Through Rule Examples #3

- Service providers could not provide documentation showing the monthly pass through of benefits because of system changes that occurred such as transfer of ownership, retiring of a legacy system, or change in third-party provider.
- Service providers should ensure change management procedures include access to prior systems to ensure compliance with the record retention requirements.

Questions?

Improper Pass Through of Lifeline Program Support Rule

• Service providers are required to reimburse each subscriber receiving the Lifeline benefit in an amount equal to the federal support amount, including the support amounts described in § 54.403(a) and (c). The service provider's universal service support reimbursement shall not exceed the provider's rate for that offering, or similar offerings, subscribed to by consumers who do not qualify for Lifeline.

Improper Pass Through of Lifeline Program Support Example

- The amount disbursed by the Lifeline program to the service provider exceeded the amount passed through to the subscribers.
- Service providers should ensure procedures are in place to verify that it passes through the full amount of Lifeline program support to its eligible Lifeline subscribers, including a reconciliation of its billing system with the Lifeline Claims system (LCS).

Inadequate Eligibility Documentation Rule

Eligibility documentation must ensure that the subscriber is qualified for the Lifeline program through the following options:

- A government program such as:
 - Supplemental Nutrition Assistance Program (SNAP)
 - Supplemental Security Income (SSI)
 - Medicaid
 - Federal Public Housing Assistance (FPHA)
 - Veterans Pension or Survivors Benefit Programs
 - Tribal-specific programs (Bureau of Indian Affairs General Assistance, Head Start, Tribal Temporary Assistance for Needy Families, or Food Distribution Program on Indian Reservations)
- Subscriber income at or below 135% of the <u>Federal Poverty Guidelines</u>.

Note: This finding may apply to NLAD opt-out states.

Inadequate Eligibility Documentation Example

Example

Eligibility documentation is inadequate due to at least one of the following reasons:

- Documents do not indicate a qualified program.
- Documents do not show benefit coverage period.
- Documents show a state where the subscriber does not reside in.
- Income exceeds the 135% of the Federal Poverty Guidelines.
- Documents appear suspicious.
- Documents do not show subscriber's name, or the name on the documents does not match subscriber's name.

Prevention

Eligibility documentation must be carefully reviewed as required by the Lifeline rules before an eligibility determination is made (47 CFR § 54.410).

Improper De-Enrollment Rule

Lifeline service providers are required to:

- Have an effective process to identify subscribers that no longer meet the criteria to be considered a qualifying low-income consumer under § 54.409.
- Notify the subscriber of impending termination of his or her Lifeline service.
 - Notification of impending termination must be sent in writing separate from the subscriber's monthly bill, if one is provided, and must be written in clear, easily understood language.
- Allow a subscriber 30 days following the date of the impending termination letter required to demonstrate continued eligibility.
- De-enroll any subscriber who fails to demonstrate eligibility within five business days after the expiration of the subscriber's time to respond under § 54.405 (e) (1).

Improper De-Enrollment Rule (Cont.)

- De-enroll any subscriber from participation in the Lifeline program within five business days upon notification by the Lifeline program that a subscriber is receiving the Lifeline benefit from another service provider, or that more than one member of a subscriber's household is receiving the Lifeline benefit under § 54.405(e)(2).
- De-enroll any subscriber within two business days following a subscriber's request to be de-enrolled under § 54.405(e)(5).

Improper De-Enrollment Example

• Service provider failed to de-enroll subscribers that were no longer eligible to receive the Lifeline benefit due to the following:

Example

- Duplicative support
- Failure to recertify
- Subscriber request
- Service provider failed to send a notice of impending termination letter to the subscribers that failed to recertify their eligibility.

Prevention

 Service providers should de-enroll subscribers in a timely manner when they become aware or are alerted that a subscriber is no longer eligible to receive the Lifeline benefit.

Service providers should notify the subscriber of their impending termination of their Lifeline benefit. The notification must be sent in writing separate from the subscriber's monthly bill, if one is provided, and must be written in clear, easily understood language.

Enrollment Representative Commissions Rule

 Lifeline service providers are prohibited from offering or providing to enrollment representatives or their direct supervisors any commission compensation that is based on the number of consumers who apply for or are enrolled in the Lifeline program with that eligible telecommunications carrier.

Enrollment Representative Commissions Example

Example Prevention

 Service provider used enrollment representatives to enroll new subscribers into the Lifeline program and provided compensation to those agents based on the number of subscribers enrolled. Service providers should review the compensation structure for enrollment, supervisor, and third-party agents and ensure that the agents are not compensated based on the number of subscribers enrolled into the Lifeline program.

August Webinar

Register for the next Lifeline webinar.

- **Date**: August 13, 2025
- **Time**: 3:00 p.m. ET 4:00 p.m. ET
- Topic: Navigating the National
 Lifeline Accountability Database
 (NLAD)

Webinars

Join us to learn about Lifeline program updates, including Lifeline program rules and orders, guidance about compliance and filings, the National Verifier, and the National Lifeline Accountability Database (NLAD).

Sign up for the Lifeline program newsletter to receive webinar announcements via email.

Upcoming Trainings

Navigating the National Lifeline Accountability Database (NLAD)

August 13, 2025 © 03:00 pm – 04:00 pm ET

Intended Audience: Service providers

Lifeline subject matter experts will provide an overview of the National Lifeline Accountability Database (NLAD) and the key functions service providers use to manage Lifeline subscribers.

Thank You!
