

How to Recall an FCC Form 466

On April 8, 2021, the FCC released [Order DA 21-394](#), waiving the Rates Database requirement for Telecom program applicants for FY2021 and F2022. If you have already submitted an FY2021 funding request (FCC Form 466), you must recall your form and resubmit with the correct rate before the close of the filing window at 11:59 p.m. ET June 1, 2021.

Note: Recalling a form completely removes the form from USAC's queue. You should only recall forms during a filing window, forms recalled after 11:59 p.m. June 1, 2021 will be removed from funding consideration.

Follow these steps to recall and resubmit:

1. **Recall** your form in My Portal:

2. **Enter in the rural rate** calculated using Method 1, 2, or 3, on **Line 33** and **upload documentation** substantiating both the **rural and urban rate**:

3. Ensure the rest of the information on your form is correct, then **certify and submit**.

NOTE: For all previously approved urban and rural rates, you **must** provide USAC with the previous FRN associated with that approved rate and submit **all** documentation associated with that rate.

Please be sure to recall your form and resubmit your FCC Form 466 before the close of the filing window at **11:59 p.m. ET June 1, 2021**.
