

# Submitting an FY2021 FCC Form 466

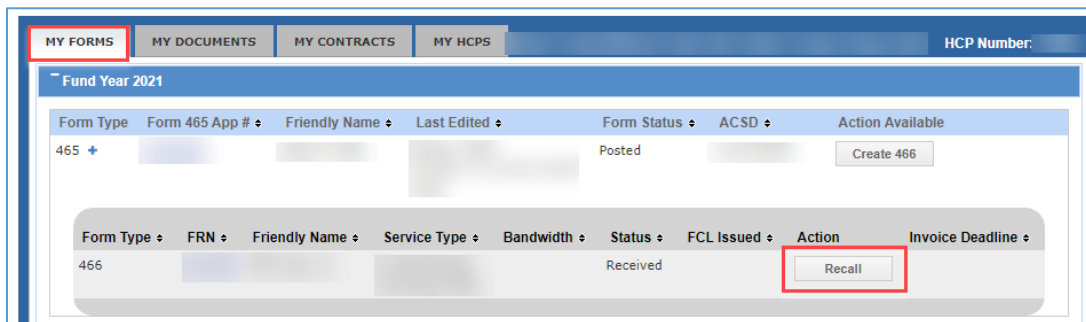

On April 8, 2021, the FCC released [Order DA 21-394](#), waiving the Rates Database requirement for Telecom program applicants for FY2021 and F2022. If you have already submitted an FY2021 funding request (FCC Form 466), you must recall your form and resubmit with the correct rate before the close of the filing window at 11:59 p.m. ET June 1, 2021.

**Note:** Recalling a form completely removes the form from USAC's queue. You should only recall forms during a filing window, forms recalled after 11:59 p.m. June 1, 2021 will be removed from funding consideration.

If you have **previously submitted your form using the Rates Database**, start with step one to submit correct updated rates. If you have **not yet submitted your form**, proceed to step two for instructions on inputting rural and urban rates.

Follow these steps to recall and resubmit:

**1. Recall your form in My Portal:**

Please be sure to recall your form and resubmit your FCC Form 466 before the close of the filing window at **11:59 p.m. ET June 1, 2021**.

**2. Enter in the rural rate** calculated using Method 1, 2, or 3, on **Line 33** and **upload documentation** substantiating both the **rural and urban** rate:

The screenshot shows the input fields for Line 33 of the FCC Form 466. The text reads: 'Line 33: Rural rate per month per the service agreement (Enclose Documentation)'. Below this are three input fields: 'Undiscounted Cost per Month (excluding taxes & fees)', 'Taxes & Fees per Month (optional)', and 'Total Undiscounted Cost per Month'. Each field has a dollar sign and a warning icon. Below these fields is a section labeled 'Attach Rural Rate and Urban Rate documentation here.' with an 'Upload...' button highlighted by a red box.

**NOTE:** For all previously approved urban and rural rates, you **must** provide USAC with the previous FRN associated with that approved rate and submit **all** documentation associated with that rate.

*Continued on next page...*

- Proceed to Block 6: Comprehensive Rate Comparison Request. You must click both buttons “Determine median rural rate” and “Determine monthly urban rate” to submit the form. Once in USAC’s queue, the form reviewer will disregard these pulled automated rates and instead use the rates you submitted from Line 33 to complete the review. The final version of the approved FCC Form 466 will reflect the corrected information.

**Block 6: Comprehensive Rate Comparison Request**

The information in this block will establish the difference between the urban and rural rates for your requested service.

*Note: Installation charges must occur during the current funding year to be eligible for support.*

State	GA
Rate Tier	Less Rural
Category Of Service	Voice
Bandwidth (Mbps)	
Best efforts/dedicated service	Best Efforts

**Determine median rural rate** \$

Line 39: One-time Urban Rate Charge (in selected large city) \$

Line 40: One-time Rural Rate Charge (in city where HCP is located) \$

Upload ONLY One-time Rural Charges Documentation. Do not upload documentation for other line items here.

Line 41: Monthly Urban Rate (in selected Large City)

State	GA
Category Of Service	Voice
Bandwidth (Mbps)	
Best efforts/dedicated service	Best Efforts

**Determine monthly urban rate** \$

Please be sure to submit your FCC Form 466 before the close of the filing window at **11:59 p.m. ET June 1, 2021.**
