Overview

Submitting the FCC Form 465
RHC Program Application Process

1. **Determine Eligibility**
   - Must meet three eligibility criteria:
     - Not-for-profit/public
     - In a rural area
     - One of the eligibility facility types
   - HCF Program: [FCC Form 460](#)
   - Telecom Program: [FCC Form 465](#)

2. **Develop Evaluation Criteria and Request Services**
   - Describe the services you need and develop scoring criteria to evaluate bids. Your request for services is posted to the USAC website for a minimum of 28 days.
   - HCF Program: [FCC Form 461](#)
   - Telecom Program: [FCC Form 465](#)

3. **Evaluate Bids and Select Service Provider**
   - Once competitive bidding has ended, choose the most “cost-effective” service provider.

4. **Submit Funding Request**
   - Provide information about the services selected: cost, service provider information, and terms of service agreement(s).
   - HCF Program: [FCC Form 462](#)
   - Telecom Program: [FCC Form 466](#)

5. **Certify Connection**
   - Confirm service start and end dates.
   - HCF Program: [FCC Form 463](#)
   - Telecom Program: [FCC Form 467](#)

6. **Invoice**
   - Submit invoice before deadline:
     - **HCF Program:** Initiate invoicing process by submitting FCC Form 463 to service provider for review and submission to USAC.
     - **Telecom Program:** Service provider completes invoicing process.
   - HCF Program: [FCC Form 463](#)
   - Telecom Program: [Invoice](#)
What is a Request for Services?

- The HCP submits the **FCC Form 465** to let service providers know what types of services are being requested.
- Service providers use the information on the FCC Form 465 to create a bid to provide those services.
- Telecommunications (Telecom) program FCC Form 465 is the “Description of Services Requested and Certification Form”.
- The FCC Form 465 acts as both the eligibility determination and request for services.
What is a Request for Services? (continued)

• The HCP and service provider may not enter into an agreement to purchase services until 28 days after the Request for Services is posted.
  • The 28-day competitive bidding process begins the next full business day after the FCC Form 465 is publicly posted.
  • After the 28 day period is complete, the HCP and service provider are welcome to sign a contract.
    • This day is called the Allowable Contract Selection Date (ACSD).
Rural Health Care Program: **Funding Year 2023**

**FY2023: JULY 1, 2023-JUNE 30, 2024**

- FCC Form 461 HCF Program
- FCC Form 465 Telecom Program
- Request for services must be posted to USAC’s website by March 5, 2023

**DEC 1, 2022 - APRIL 3, 2023:** Funding Request Filing Window Period
- FCC Form 462 HCF Program
- FCC Form 466 Telecom Program

**OCT 28, 2024:** Invoicing Deadline
- FCC Form 463 HCF Program
- Telecom Invoice
Questions?
Competitive Bidding

Submitting the FCC Form 465
Competitive Bidding

• The purpose of competitive bidding is to allow all service providers an equal opportunity to understand the HCP’s service requirements and offer the most cost-effective solution to address those needs.

• RHC program rules and FCC Orders require a fair and open competitive bidding process.
Competitive Bidding

• Service providers, who plan to bid, cannot assist with the preparation of the FCC Form 465, choose a winning bidder, or participate in the vendor selection process in any way.

• All potential bidders shall have access to the same information about the service needs and shall be treated in the same manner.

• All applicants and service providers shall comply with all applicable state, Tribal, or local procurement laws.
Bid Evaluation Criteria

• The bid evaluation criteria is a list of weighted standards, included in the Request for Services, that the HCP will use to determine the most cost-effective bid.

• Applicants must disclose minimum requirements for each criterion.

• Each criterion is given a specific weight. The sum of the weights must equal 100.

• The bid evaluation criteria should address the HCP’s needs as indicated on the FCC Form 465 and be based on the FCC's definition of cost-effective. (47 CFR 54.622(c)).

What is a Competitive Bidding Exemption?

- In some cases, the service needs or contract conditions allow the HCP to be exempt from competitive bidding.
- With a competitive bidding exemption, HCPs will not have to undergo competitive bidding, and do not need to create evaluation criteria or collect bids from service providers.
- A competitive bidding exemption allows the HCP to skip the FCC Form 465 (for the purposes of competitive bidding) entirely and proceed directly to submitting a funding request.
Competitive Bidding Exemptions

- HCPs must meet one of the following criteria to be exempt from submitting the FCC Form 465 and participating in the competitive bidding process:
  - Purchasing services or equipment from a master service agreement (MSA) negotiated by a federal, state, Tribal, or local governmental entity on behalf of the HCP and others, and which was awarded pursuant to applicable competitive bidding requirements;
  - Requesting support using contracts previously approved by USAC (MSA under the RHC Pilot program or the HCF program);
  - Using an active multi-year contract designated as evergreen for the RHC program (exemption applies for the life of the contract); or
  - Using a contract approved under the Schools and Libraries (E-rate) program.
- If the HCP does not meet any of the competitive bidding exemptions, the FCC Form 465 must be submitted and the HCP must go through competitive bidding.
Evergreen Contracts

- HCPs are not required to file an FCC Form 465 or competitively bid for the life of a multi-year contract if they are designated as evergreen under the HCF or Telecom program.

- A contract may be designated as evergreen if the contract meets all of the following requirements:
  - Both parties are identified;
  - The contract specifies the service type, bandwidth, and quantity;
  - The contract is signed and dated by the HCP or consortium leader after the Allowable Contract Selection Date (ACSD);
  - The contract specifies the term and cost of service(s); and
  - The contract includes the physical addresses of the HCP(s) purchasing from the contract.

- USAC must have designated the contract evergreen prior to submission of the funding request.
Service Substitutions (47 CFR 54.624)

• Substitutions allow the flexibility, for an HCP with an approved funding commitment, to spend all of the committed funds, even though USAC-supported services may change over the course of the commitment.

• Service substitutions allow HCPs to reallocate un-invoiced, committed funds to substitute or modify the services.

• A service substitution may be requested if:
  • The substitution is provided for in the contract, within the change clause, or constitutes a minor modification;
  • The service is an eligible service under the Telecom program;
  • The substitution does not violate any contract provision or state, Tribal, or local procurement laws; and
  • The requested change is within the scope of the controlling Request for Services, including any applicable RFP used in the competitive bidding process.

• HCPs with month-to-month approved funding commitments may not utilize service substitutions since a contract was not submitted with the original funding request.

• Service substitutions must be submitted by the service delivery deadline.

• Please use the information on the Site and Service Substitutions webpage as a resource.
Requests for Proposal

• A **request for proposal** (RFP) is a comprehensive bidding solicitation that describes the business priorities and functional requirements in sufficient detail to ensure an effective, fair, and open competitive bidding process.
  • An RFP must be submitted if it is required under applicable state, Tribal, or local procurement rules or regulations.
• If the HCP chooses to include an **RFP**, it must be submitted with the FCC Form 465, and include, at a minimum:
  • A description of the service needs and a defined scope for the project;
  • The number of days during which bids will be accepted (28 day minimum);
  • Clearly delineated deliverables; and
  • The bid evaluation criteria, including the weight assigned to each criterion.
• The RFP should align with everything entered into the FCC Form 465 and provide more details about the requested services.
Service Providers and Competitive Bidding

• Service providers are prohibited from preparing, signing, or submitting an applicant’s FCC Form 465 or any other competitive bidding documents.

• Service providers are prohibited from being involved in developing the bid evaluation criteria, or participating in the vendor selection process in any way.

• If it is determined that a service provider helped an HCP with its request for services and was subsequently chosen to provide services, the HCP will have committed a competitive bidding violation, and the funding request will be denied and any funding payments will be subject to rescission.
Telecom Program – FCC Order DA 22-580

• On May 25, 2022, the FCC released Order DA 22-580 extending the waiver of the requirement to use the Telecom Program Rates Database for determining urban and rural rates for health care providers for FY2023. In addition, the Order provides the following clarification:
  • For all FY2022 and FY2023 funding requests, the most recently approved urban and rural rates for a facility/service combination are the most recently approved such rates on the date the HCP submits its FCC Form 465.
  • If the service provider receives approval of a new rate in the time between the submission of the FCC Form 465 and the submission of the FCC Form 466, the most recently approved rate at the time of the FCC Form 465 would be applicable.
  • If no such approved or comparable rural rate is available, the rate must be established using one of the pre-existing methods.
Telecom Program – Calculating Rural Rates

• Instead of using the Rates Database, HCPs, and their service providers, may continue to use rates approved under [Method 1, 2, or 3] to calculate rural rates.

• Alternatively, HCPs and service providers may use the most recently-approved rural rate for FY2018, FY2019, FY2020, FY2021, or FY2022 for the same service to the same facility or, if there is no approved rate, an approved rural rate for the same or similar services to a facility with the same or similar geographic characteristics.

  • **Note:** For all previously approved urban and rural rates, HCPs must provide USAC with the previous FRN associated with that approved rate and submit all documentation associated with that rate.

• Applicants will enter this rural rate on Line 33 of the FCC Form 466 (rural rate per month per service agreement) of the FCC Form 466 and upload supporting documentation, for example, a Funding Commitment Letter or rates approval letter for FY2018, FY2019, FY2020, FY2021, or FY2022.

• Documentation provided must show that the rural rate provided is in compliance with the rural rate rule (47 CFR 54.607 (2018)).
Telecom Program – Calculating Urban Rates

• Instead of using the Rates Database, applicants may either use an urban rate that has been previously approved for the same service at the same HCP location for FY2018, 2019, 2020, 2021, and 2022 or use the preexisting rule to calculate the urban rate.

• Applicants should upload to their FCC Form 466 documentation substantiating the urban rate on Line 33 of the FCC Form 466, whether it be documentation supporting a previously approved urban rate such as a Funding Commitment Letter (FCL) or documentation substantiating the urban rate under the preexisting rule.

• If there is no approved rate for a specific service delivered to the specific HCP location, an urban rate approved for the same or similar services to a facility in a same or similar geographic location may be used.

• If an applicant doesn’t upload supporting documentation with the submission of the FCC Form 466, an Information Request will be sent to obtain it.
Supply Chain Order

- As a reminder, when service providers log in to My Portal they will see two supply chain certifications included in the FCC Form 463 and Telecom program invoice.

The first certification affirms compliance with the Section 54.9 prohibition on USF support to purchase, obtain, maintain, improve, modify, operate, manage, or otherwise support equipment or services produced or provided by the covered companies deemed to pose a national security threat to the integrity of the communications network or communications supply chain. The second certification affirms compliance with Section 54.10, which prohibits the use of any Federal subsidies on any communications equipment and services on the Covered List, which includes those offered by Huawei Technologies Company, ZTE Corporation, Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, Dahua Technology Company, AO Kaspersky Lab, China Mobile International USA Inc., China Telecom (Americas) Corp. and their affiliates and subsidiaries.

- **FY2022 Applicants:** If you requested services or equipment provided or that contain components of products produced by any of the listed covered companies or any of their parents, affiliates and subsidiaries in FY2022, you cannot invoice for these funds. Instead, you should immediately request a service substitution prior to invoicing in order to ensure complete program compliance.

- **FY2023 Applicants:** As you proceed with competitive bidding beginning in July, please ensure you are not requesting funding for services or equipment from listed covered companies or any of their parents, affiliates and subsidiaries.

Supply Chain

Since November 2019, the FCC has taken a number of actions to protect the national security of the United States, the security and safety of United States persons, and the integrity of communications networks or the communications supply chain. The FCC has also implemented the Secure and Trusted Communications Networks Act of 2019. The FCC's actions can be found at www.fcc.gov/supplychain.

In November 2019, the FCC released the Supply Chain First Report and Order adopting a rule (47 CFR Section 54.9) which prohibits the use of Universal Service Fund (USF) support to purchase, obtain, maintain, improve, modify, operate, manage, or otherwise support equipment or services produced or provided by companies found to pose a national security threat to the integrity of communications networks or the communications supply chain.

Best Practices and Resources

Submitting the FCC Form 465
Best Practices: Communicating with Your Service Provider

• Once your ACSD has passed and you’ve chosen a service provider, include them when you reply to Information Requests via email.
• Ensure your service provider is aware of all the necessary documentation needed for future steps in the application process.
• Include language in your bid documentation that confirms your service provider will act in compliance with all RHC program rules and FCC Orders.
• All bid correspondence should be handled via email for audit purposes.
• HCPs and service providers are required to retain documentation for a minimum of five years.
